CRISIL-IBX Gilt Index - June 2027

CRISIL-IBX Gilt Index - June 2027 Index seeks to measure the performance of portfolio predominantly invested in G-Sec maturing between 01 January 2027 to 30 June 2027. The index shall mature on 30 June 2027.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- The index uses a buy and hold strategy wherein the portfolio of G-sec is held till maturity unless they become ineligible
- Small portion of portfolio (2%) is invested in on-the-run 91 Day T-bill for liquidity
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations
- Inception Date of Index: 28 February 2021.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

- Weights of the G-sec securities and T-bills Securities in the Index will be 98% and 2% respectively.
- Securities Selection methodology in G-Sec are as follows:
 - All securities selected will have a maturity date in the eligible period of G-sec which is from 1st January 2027 to 30th June 2027.
 - All Securities are selected on the basis of Amount Outstanding.
 - Minimum Amount Outstanding should be Rs. 25000 crores.
 - Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.
 - Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
 - Eligible securities will be added on a 6 monthly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Securities Selection methodology in T-Bills are as follows:
 - Three 91-Day T-Bill will be selected by rebalancing on a bi-monthly basis.
 - This will consist of last three on-the-run 91-Day T-Bills as on the bi-monthly (once in two months) rebalancing date.
 - The maturity date of such T-bill selected should not be greater than the maturity of the fund.
 - In case no such 91 Day on-the-run T-Bill is available closer to the maturity date of the fund, T-Bill that is closest to the maturity date but maturing before the maturity date of index will be selected.
 - If such T-Bill matures as well, the proceeds will be invested in TREPS.
 - The T-bills will be weighted equally on each rebalancing date.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or

securities, will be reinvested on the same day in the index in the proportion of existing weights.

- As the index includes securities that shall mature during the 6-period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - a) The proceeds from security redemption will be reinvested in the longest maturity outstanding government security issued and maturing on or just before the index maturity date.
 - b) In case a replacement in the form of another outstanding government security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - c) In case due to any reason, it is not possible to meet the requirements stated in point (a) and (b) above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - d) If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The relative weights of the Government securities and asset classes will change due to price movement and will be reset during the 6 monthly rebalancing.
- While rebalancing (security addition/ deletion/ weights reset), Impact Cost for each asset class will be as follows:
 - G-sec: 1.5 bps on each leg (total 3 bps)
 - T-bills: 0 bps on each leg (total 0 bps)

Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX Gilt Index - April 2028

CRISIL-IBX Gilt Index - April 2028 Index seeks to measure the performance of portfolio predominantly invested in G-Sec maturing between 06 September 2027 and 05 April 2028. The index shall mature on 05 April 2028.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- The index uses a buy and hold strategy wherein the portfolio of G-sec is held till maturity unless they become ineligible.
- A small portion of the portfolio (2%) is invested in on-the-run 91 Day T-bill for liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations.
- Inception Date of Index: 28 February 2021.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

- Weights of the G-sec securities and T-bills Securities in the Index will be 98% and 2% respectively.
- Securities Selection methodology in G-Sec are as follows:
 - All securities selected will have a maturity date in the eligible period of G-sec which is from 06 September 2027 to 05 April 2028.
 - All Securities are selected on the basis of Amount Outstanding.
 - Minimum Amount Outstanding should be Rs. 25000 crores.
 - Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
 - Eligible securities will be added on a 6 monthly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
 - Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.
- Securities Selection methodology in T-Bills are as follows:
 - Three 91-Day T-Bill will be selected by rebalancing on a bimonthly basis.
 - This will consist of last three on-the-run 91-Day T-Bills as on the bi-monthly (once in two months) rebalancing date.
 - The maturity date of such T-bill selected should not be greater than the maturity of the fund.
 - In case no such 91 Day on-the-run T-Bill is available closer to the maturity date of the fund, T-Bill that is closest to the maturity date but maturing before the maturity date of index will be selected.
 - If such T-Bill matures as well, the proceeds will be invested in TREPS.
 - The T-bills will be weighted equally on each rebalancing date.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or

securities, will be reinvested on the same day in the index in the proportion of existing weights.

- As the index includes securities that shall mature during the 6-period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - a) The proceeds from security redemption will be reinvested in the longest maturity outstanding government security issued and maturing on or just before the index maturity date.
 - b) In case a replacement in the form of another outstanding government security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - c) In case due to any reason, it is not possible to meet the requirements stated in point (a) and (b) above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - d) If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The relative weights of the Government securities and asset classes will change due to price movement and will be reset during the 6 monthly rebalancing.
- While rebalancing (security addition/ deletion/ weights reset), Impact Cost for each asset class will be as follows:
 - G-sec: 1.5 bps on each leg (total 3 bps)
 - T-bills: 0 bps on each leg (total 0 bps)

'Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.'

CRISIL-IBX 70:30 CPSE Plus SDL Index – April 2025

CRISIL-IBX 70:30 CPSE Plus SDL Index – April 2025 Seeks to track the performance of AAA CPSE and SDL securities maturing between 01 November 2024 to 30 April 2025. The index shall mature on 30 April 2025.

Asset Allocation

- **CPSE:** 70%
- **SDL:** 30%

The weights between asset classes may drift due to price movement, and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Corporate issuers with rating of AAA, issued by CPSEs, having the security nearest to maturity with a minimum outstanding of Rs. 1,000 crores in the eligible period.
- State issuers having the security nearest to maturity with a minimum outstanding of Rs. 1,000 crores in the eligible period.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 04 January 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

- Securities Selection methodology in CPSE are as follows:
 - Top 7 CPSE issuers shall be selected, at the time of inception of the index, based on liquidity score of the securities maturing in the eligible period for CPSE.
 - Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
 - Securities with the minimum amount outstanding of Rs. 1000 crore will be eligible for the index.
 - The Securities of the selected issuers having maturity nearest to the target date shall be selected.
 - The selected securities will be held till maturity unless a new security of same issuer is available having outstanding greater than and maturity closer to fund maturity as compared to existing security.
 - The issuer/security will be removed from the index if the conservative rating of issuer falls below AAA, or it is not classified as CPSE.
 - Weights to the securities will be based on Liquidity score (70%) and amount outstanding (30%) of issuer (based on eligible securities) and will be reset on a quarterly basis.
 - Perpetual bonds, Floating rate bonds, Tax free bonds, GOI service bonds, GOI guaranteed bonds, CE Rated, Partly Paid, Partial Redemption and bonds with single call/put options are excluded from

the universe of bonds.

- Securities Selection methodology in SDL are as follows:
 - Top 6 states shall be selected, at the time of inception of the index, on the basis of liquidity of the securities maturing in the eligible period for SDL
 - Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
 - Securities with minimum amount outstanding of Rs. 1000 crore will be eligible for the index.
 - The Securities of the selected states having maturity nearest to the target date shall be selected.
 - The selected securities will be held till maturity unless a new security of same issuer is available having outstanding greater than and maturity closer to fund maturity as compared to existing security.
 - Weights to the securities will be based on Liquidity score (70%) and amount outstanding (30%) and will be reset on a quarterly basis.
 - UDAY bonds will be excluded

Rebalancing and review:

1. If amount outstanding of any security falls below Rs. 1000 crore in the interim period and there is no replacement security available for the issuer, we will remove the security/issuer at the month end. The amount will be invested according to the waterfall approach stated below.
2. The relative weights of the securities will change due to price movement and will be reset during the quarterly rebalancing.
3. Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, exit of ineligible securities etc., reinvested on the same day in the index in the proportion of existing weights. If the same security is not available or on account of full redemption of the securities, it would be reinvested according to following waterfall approach -
 - a. The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - b. In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms for indices used by passive funds.
 - c. In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - d. If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

‘Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.’

CRISIL-IBX SDL Index – May 2027

CRISIL-IBX SDL Index – May 2027. Seeks to track the performance of SDL securities maturing between 01 December 2026 to 31 May 2027. The index shall mature on 31 May 2027.

Asset Allocation

- **SDL:** 100%

The weights may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers having the security nearest to maturity with a minimum outstanding of Rs. 1,000 crores in the eligible period.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations.
- Inception Date of Index: 24 January 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

- Securities Selection methodology in SDL are as follows:
 - Top 12 states shall be selected, at the time of inception of the index, on the basis of liquidity of the securities maturing in the eligible period for SDL.
 - Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
 - Securities with minimum amount outstanding of Rs. 1000 crore will be eligible for the index.
 - The Securities of the selected states having maturity nearest to the target date shall be selected.
 - The selected securities will be held till maturity unless a new security of same issuer is available having outstanding greater than and maturity closer to fund maturity as compared to existing security.
 - Weights to the securities will be based on Liquidity score (70%) and amount outstanding (30%) and will be reset on a quarterly basis.
 - UDAY bonds will be excluded

Rebalancing and review:

1. If amount outstanding of any security falls below Rs. 1000 crore in the interim period and there is no replacement security available for the issuer, we will remove the security/issuer at the month end. The amount will be invested according to the waterfall approach stated below.
2. The relative weights of the securities will change due to price movement and will be reset during the quarterly rebalancing.
3. Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, exit of ineligible securities etc., w reinvested on the same day in the index in the proportion of existing weights. If the same security is not available or on account of full redemption of the securities, it would be reinvested according to following waterfall approach -
 - a. The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL) and maturing on or just before the index maturity date.
 - b. In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms for indices used by passive funds.
 - c. In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - d. If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 PSU + SDL Index – October 2025

CRISIL-IBX 50:50 PSU + SDL Index – October 2025 Seeks to track the performance of AAA PSU and SDL securities maturing between 01 May 2025 to 31 October 2025. The index shall mature on 31 October 2025.

Asset Allocation

- **PSU:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement, and will be reset quarterly

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Corporate issuers with rating of AAA, issued by PSUs, with a minimum outstanding of Rs. 500 crores in the eligible period, having the security with the highest liquidity.
- State issuers with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security with the highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 01 March 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

PSU

Eligibility Norms:

- Issuing entity should be domiciled in India and should satisfy either of the following:
- Central Public Sector Enterprises (CPSEs) as listed on DPE & DIPAM website.
- Maharatna, Navratna and Miniratna as listed on DPE website, if not included in CPSEs list as mentioned in point 1.
- Public Financial Institutions (PFIs) owned and managed by GOI and not included in points 1 and 2 above.
- Statutory body set-up by Act of Parliament.

Issuer Selection:

- All eligible issuers with a conservative rating of AAA maturing in the eligible period will be shortlisted.
- All issuers with a minimum total amount outstanding of Rs. 500 crores in the eligible period will be selected. Minimum 4 issuers are to be included in the index.
- Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed.

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in the eligible period before the target date, with minimum amount outstanding of Rs. 100 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- Perpetual bonds, Floating rate bonds, Tax free bonds, GOI service bonds, GOI guaranteed bonds, Partly Paid, Partial Redemption and bonds with embedded call/put options are excluded from the universe of bonds.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Weighing Approach:

- Weights to the issuers will be divided equally.

Rebalancing and Downgrade:

- The rebalancing period will be quarterly.
- During the quarterly rebalancing, if a new issuer meets the eligibility criteria, it will be added to the index. The weights of the issuers will be reset to equal weights during the quarterly rebalancing, when a new issuer is added in the index, subject to 15% single issuer limit.
- The selected securities will be held till maturity unless a new security of same issuer is identified during quarterly rebalancing to be more liquid
- If government gives 'in principal approval' to disinvest its stake in any government owned entity, such entity will not be a part of the index at the time of inception of the index.
- If any existing constituent of the index gets in principal approval for disinvestment, such issuer, will be excluded from the index, only after the process of disinvestment is completed, during the quarter rebalancing of the index.
- In case if any issuer gets downgrade for the PSU AAA issuers, such issuers shall be excluded from the index within the next 5 working days.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of

India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the quarter

SDL

Issuer Selection:

- All states with issuances maturing in the eligible period will be shortlisted
- Top 10 issuers with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected. Minimum 4 issuers are to be included in the index.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in 6-month period before the target date, with minimum amount outstanding of Rs. 100 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
- Uday bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally.

Rebalancing and Downgrade:

- The rebalancing period will be quarterly.
- During the quarterly rebalancing, if a new issuer meets the eligibility criteria, it will be added to the index. The weights of the issuers will be reset to equal weights during the quarterly rebalancing, when a new issuer is added in the index.
- The selected securities will be held till maturity unless a new security of same issuer is identified during quarterly rebalancing to be more liquid
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, reinvested on the same day in the index in the proportion of existing weights.
 - As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed

by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.

- If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the quarter

'Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.'

CRISIL-IBX 50:50 Gilt Plus SDL Index – April 2028

CRISIL-IBX 50:50 Gilt Plus SDL Index – April 2028 seeks to track the performance of Gilt and SDL securities maturing between 01 May 2027 to 30 April 2028. The index shall mature on 30 April 2028.

Asset Allocation

- **Gilt:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement, and will be reset Semi-annually

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25000 crores
- State issuers with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security nearest to maturity
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 10 March 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- All Securities are selected on the basis of Amount Outstanding.
- Minimum Amount Outstanding should be Rs. 25000 crores.
- The index constituents are valued on a daily basis using CRISIL Valuations
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Rebalancing, Review:

- Eligible securities will be added on a 6 monthly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).

Cash flow reinvestment:

- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case if there are no eligible securities, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index
- The relative weights of the Government securities will change due to price movement and will be reset during the 6 monthly rebalancing.

The effective date of the above rebalancing shall be first working day of the month

SDL**Issuer Selection:**

- All states with issuances in maturing in the eligible period will be shortlisted
- Top 10 issuers identified at the time of inception of launch date with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, security having maturity nearest to the target date shall be selected, from securities maturing in eligible period, with minimum amount outstanding of Rs. 100 crores will be considered.
- The index constituents are valued on a daily basis using CRISIL Valuations.

- Uday bonds will be excluded from the final universe.

Weighing Approach:

- Weights to the issuers will be divided equally, at the inception of the index.
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.

Rebalancing and Downgrade:

- The index constituents will be reviewed on semi-annual basis.
- During the rebalancing, if any security of an issuer becomes eligible, it will be added to the index. Existing securities will not be excluded. Weight of the issuer will be divided among the securities.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the month.

‘Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.’

CRISIL-IBX 60:40 SDL + AAA PSU Index – April 2025

CRISIL-IBX 60:40 SDL + AAA PSU Index – April 2025 seeks to track the performance of SDL and AAA PSU securities maturing between 01 November 2024 to 30 April 2025. The index shall mature on 30 April 2025.

Asset Allocation

- **SDL:** 60%
- **AAA PSU:** 40%

The weights between asset classes may drift due to price movement and will be reset Semi-annually.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers with a minimum outstanding of Rs. 1,500 crores in the eligible period, having the security with the highest liquidity
- Corporate issuers with rating of AAA, issued by PSUs, with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security with the highest liquidity
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 24 March 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

SDL

Issuer Selection:

- All states with issuances maturing in the eligible period will be shortlisted
- 10 most liquid issuers with a minimum total amount outstanding of Rs. 1,500 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected. Minimum 5 issuers are to be included in the index.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 1000 crores will be considered. If there are no trades in the previous quarter

for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.

- UDAY bonds will be excluded

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index.
- Weights will be reset every quarter

Rebalancing and downgrade:

- The index constituents will be reviewed on semi-annual basis.
- If any issuer becomes eligible, it will be added during the rebalancing, and the weights will be reset. Existing issuers will not be excluded.
- During the rebalancing, if any security of an issuer becomes eligible, it will be added to the index. Existing securities will not be excluded. Weight of the issuer will be divided among the securities.
- When any issuer is excluded, the weight of that particular issuer will be redistributed proportionally in rest of the issuers of same asset class.
- If the total number of SDL issuers fall below 5, when issuers are excluded due to any reason, new issuers will be added as per the criteria stated above.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the month or the quarter

AAA PSU

Eligibility Norms:

Issuing entity should be domiciled in India and should satisfy either of the following:

- Central Public Sector Enterprises (CPSEs) as listed on DPE & DIPAM website.
- Maharatna, Navratna and Miniratna as listed on DPE website, if not included in CPSEs list as mentioned in point 1.
- Public Financial Institutions (PFIs) owned and managed by GOI and not included in points 1 and 2 above.
- Statutory body set-up by Act of Parliament, and included among others in the list of public enterprises sourced from <https://www.indiabudget.gov.in/>

Issuer Selection:

- All eligible issuers with a conservative rating of AAA maturing in the eligible period will be shortlisted
- 10 most liquid issuers with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected. Minimum 4 issuers are to be included in the index.
- Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 500 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- Perpetual bonds, Floating rate bonds, Tax free bonds, GOI service bonds, GOI guaranteed bonds, CE Rated, Partly Paid, Partial Redemption and bonds with embedded call/put options are excluded from the universe of bonds.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index.
- Each issuer will be subject to a cap of 15%
- Weights will be reset every quarter

Rebalancing and Downgrade:

- The index constituents will be reviewed on semi-annual basis.
- If any issuer becomes eligible, it will be added during the rebalancing, and the weights will be reset. Existing issuers will not be excluded
- During the rebalancing, if any security of an issuer becomes eligible, it will be added to the index. Existing securities will not be excluded. Weight of the issuer will be divided among the securities.
- If the issuer cap of 15% is being breached, additional / excess amount may be invested in the rest

of the securities of the same asset class which are part of the index

- If government gives 'in principal approval' to disinvest its stake in any government owned entity, such entity will not be a part of the index at the time of inception of the index.
- If any existing constituent of the index gets in principal approval for disinvestment, such issuer, will be excluded from the index, only after the process of disinvestment is completed, during the quarter rebalancing of the index.
- In case if any issuer gets downgrade for the PSU AAA issuers, such issuers shall be excluded from the index within the next 5 working days.
- When the issuer is excluded, the weight of the particular issuer will be redistributed proportionally in rest of the issuers of same asset class, subject to 15% issuer cap.
- If the total number of AAA PSU issuers fall below 4, when issuers are excluded on the basis of above reasons (Downgrade/disinvestment), new issuers will be added as per the criteria stated above.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach-
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date. This will be subject to 15% single issuer limit
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms (single issuer weight cap of 15%)
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the month or the quarter

'Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.'

CRISIL-IBX 60:40 SDL + AAA PSU Index – April 2027

CRISIL-IBX 60:40 SDL + AAA PSU Index – April 2027 seeks to track the performance of SDL and AAA PSU securities maturing between 01 May 2026 to 30 April 2027. The index shall mature on 30 April 2027.

Asset Allocation

- **SDL:** 60%
- **AAA PSU:** 40%

The weights between asset classes may drift due to price movement, and will be reset Semi-annually

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers with a minimum outstanding of Rs. 1,500 crores in the eligible period, having the security with the highest liquidity
- Corporate issuers with rating of AAA, issued by PSUs, with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security with the highest liquidity
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 24 March 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

SDL

Issuer Selection:

- All states with issuances in maturing in the eligible period will be shortlisted
- 12 most liquid issuers with a minimum total amount outstanding of Rs. 1,500 crores in the eligible period will be selected on the basis of liquidity. If less than 12 issuers are available, all issuers will be selected. Minimum 5 issuers are to be included in the index.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, security having maturity nearest to the target date shall be selected, from securities maturing in eligible period, with minimum amount outstanding of Rs. 1500 crores.
- UDAY bonds will be excluded

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index.
- Weights will be reset every quarter

Rebalancing and downgrade:

- The index constituents will be reviewed on semi-annual basis.
- If any issuer becomes eligible, it will be added during the rebalancing, and the weights will be reset. Existing issuers will not be excluded
- During the rebalancing, if any security of an issuer becomes eligible, it will be added to the index. Existing securities will not be excluded. Weight of the issuer will be divided among the securities.
- When any issuer is excluded, the weight of that particular issuer will be redistributed proportionally in rest of the issuers of same asset class.
- If the total number of SDL issuers fall below 5, when issuers are excluded due to any reason, new issuers will be added as per the criteria stated above.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the month or the quarter

AAA PSU

Eligibility Norms:

Issuing entity should be domiciled in India and should satisfy either of the following:

- Central Public Sector Enterprises (CPSEs) as listed on DPE & DIPAM website.
- Maharatna, Navratna and Miniratna as listed on DPE website, if not included in CPSEs list as mentioned in point 1.
- Public Financial Institutions (PFIs) owned and managed by GOI and not included in points 1 and 2 above.
- Statutory body set-up by Act of Parliament, and included among others in the list of public enterprises sourced from <https://www.indiabudget.gov.in/>

Issuer Selection:

- All eligible issuers with a conservative rating of AAA maturing in the eligible period will be shortlisted
- 8 most liquid issuers with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected on the basis of liquidity. If less than 8 issuers are available, all issuers will be selected. Minimum 4 issuers are to be included in the index.
- Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, security having maturity nearest to the target date shall be selected, from securities maturing in eligible period, with minimum amount outstanding of Rs. 500 crores.
- Perpetual bonds, Floating rate bonds, Tax free bonds, GOI service bonds, GOI guaranteed bonds, CE Rated, Partly Paid, Partial Redemption and bonds with embedded call/put options are excluded from the universe of bonds.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index.
- Each issuer will be subject to a cap of 15%
- Weights will be reset every quarter

Rebalancing and Downgrade:

- The index constituents will be reviewed on semi-annual basis.
- If any issuer becomes eligible, it will be added during the rebalancing, and the weights will be reset. Existing issuers will not be excluded
- During the rebalancing, if any security of an issuer becomes eligible, it will be added to the index. Existing securities will not be excluded. Weight of the issuer will be divided among the securities.
- If the issuer cap of 15% is being breached, additional / excess amount may be invested in the rest of the securities of the same asset class which are part of the index
- If government gives 'in principal approval' to disinvest its stake in any government owned entity, such entity will not be a part of the index at the time of inception of the index.

- If any existing constituent of the index gets in principal approval for disinvestment, such issuer, will be excluded from the index, only after the process of disinvestment is completed, during the quarter rebalancing of the index.
- In case if any issuer gets downgrade for the PSU AAA issuers, such issuers shall be excluded from the index within the next 5 working days.
- When the issuer is excluded, the weight of the particular issuer will be redistributed proportionally in rest of the issuers of same asset class, subject to 15% issuer cap.
- If the total number of AAA PSU issuers fall below 4, when issuers are excluded on the basis of above reasons (Downgrade/disinvestment), new issuers will be added as per the criteria stated above.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach-
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date. This will be subject to 15% single issuer limit
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms (single issuer weight cap of 15%) for indices used by passive funds.
 - In case due to any reason, it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

The effective date of the above rebalancing shall be first working day of the month or the quarter

‘Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.’

CRISIL-IBX Gilt Index – April 2029

CRISIL-IBX Gilt Index – April 2029 seeks to track the performance of gilt issuers with total amount outstanding greater than Rs. 5,000 crores maturing between 21st April 2028 to 20th April 2029. The index shall mature on 20th April 2029.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- The index uses a buy and hold strategy wherein the portfolio of G-sec is held till maturity unless they become ineligible.
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations.
- Inception Date of Index: 16th September 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Security Selection:

- Only fixed coupon bearing plain vanilla G-Sec will only be eligible for the index
- All eligible Securities shall be selected on the basis of Amount Outstanding as evaluated during the inception date of the index.
- Minimum Amount Outstanding should be Rs. 5000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). The weights may vary on account of relative price movements
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
- Weights will be reset during the rebalancing period.

Rebalancing and downgrade:

- The index constituents will be reviewed on quarterly basis and the eligible securities will be added on a quarterly basis.
- If any securities become eligible, it will be added during the rebalancing, and the weights will be reset. The weights may vary on account of relative price movements
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach -
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest as per the above criteria, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.'

CRISIL-IBX Gilt Index – June 2036

CRISIL-IBX Gilt Index – June 2036 seeks to track the performance of gilt issuers with total amount outstanding greater than Rs. 5,000 crores maturing between 1st July 2035 to 30th June 2036. The index shall mature on 30th June 2036.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- The index uses a buy and hold strategy wherein the portfolio of G-sec is held till maturity unless they become ineligible
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations
- Inception Date of Index: 16th September 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Security Selection:

- Only fixed coupon bearing plain vanilla G-Sec will only be eligible for the index
- All eligible Securities shall be selected on the basis of Amount Outstanding as evaluated during the inception date of the index.
- Minimum Amount Outstanding should be Rs. 5000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). The weights may vary on account of relative price movements
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter
- Weights will be reset during the rebalancing period.

Rebalancing and downgrade:

- The index constituents will be reviewed on quarterly basis and the eligible securities will be added on a quarterly basis.
- If any securities become eligible, it will be added during the rebalancing, and the weights will be reset. The weights may vary on account of relative price movements
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach -
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest as per the above criteria, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.'

CRISIL-IBX SDL Index – September 2027

CRISIL-IBX SDL Index – September 2027. Seeks to track the performance of SDL securities maturing between 01st April 2027 to 30th September 2027. The index shall mature on 30th September 2027.

Asset Allocation

- **SDL:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers having the most liquid security with a minimum outstanding of Rs. 1,000 crores in the eligible period.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 16 September 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Issuer Selection:

- All states with issuances maturing in the eligible period will be shortlisted
- 10 most liquid issuers based on liquidity score as evaluated during the index inception date with minimum total outstanding of Rs. 5000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter as evaluated during the index inception date will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 1000 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- UDAY bonds will be excluded

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index. The weights may vary on account of relative price movements

- Weights will be reset during every rebalancing

Rebalancing and downgrade:

- The index constituents will be reviewed on semi-annual basis.
- If any issuer becomes eligible, it will be added during the rebalancing, and the weights will be reset.
- If the total number of SDL issuers fall below 10, when issuers are excluded due to any reason, new issuers will be added as per the criteria stated above.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach -
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest as per the above criteria, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX Gilt Index – April 2026

CRISIL-IBX Gilt Index – April 2026 seeks to track the performance of gilt issuers with total amount outstanding greater than Rs. 25,000 crores maturing between 1st November 2025 to 30th April 2026. The index shall mature on 30th April 2026.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- The index uses a buy and hold strategy wherein the portfolio of G-sec is held till maturity unless they become ineligible
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations
- Inception Date of Index: 22nd September 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Security Selection:

- Only fixed coupon bearing plain vanilla G-Sec will only be eligible for the index
- All eligible Securities shall be selected on the basis of Amount Outstanding as evaluated during the inception date of the index.
- Minimum Amount Outstanding should be Rs. 25000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). The weights may vary on account of relative price movements
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter
- Weights will be reset during the rebalancing period.

Rebalancing and review:

- The securities shall be rebalanced every 6 months and the relative weights of the Government securities will change due to price movement and will be reset during the half-yearly rebalancing.
- Eligible securities will be added on a half-yearly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding government security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding government security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights
 - In case due to any reason, it is not possible to meet the requirements stated in point a and b above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.'

CRISIL-IBX Gilt Index – April 2033

CRISIL-IBX Gilt Index – April 2033 seeks to track the performance of gilt issuers maturing between 1st May 2032 to 29th April 2033. The index shall mature on 29th April 2033.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- The index uses a buy and hold strategy wherein the portfolio of G-sec is held till maturity unless they become ineligible.
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations.
- Inception Date of Index: 23rd September 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

Security Selection:

- Only fixed coupon bearing plain vanilla G-Sec will only be eligible for the index
- All eligible Securities shall be selected on the basis of Amount Outstanding as evaluated during the inception date of the index.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). The weights may vary on account of relative price movements
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter
- Weights will be reset during the rebalancing period.

Rebalancing and review:

- The index constituents will be reviewed on quarterly basis and the eligible securities will be added

- every quarter.
- If any security becomes eligible, it will be added during the rebalancing process, and the weights will be reset as per weighing approach explained above.
 - Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
 - As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach -
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest as per the above criteria, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
 - The effective date of the above rebalancing shall be first working day of the month or the quarter.
 - Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 Gilt Plus SDL Index – April 2037

CRISIL-IBX 50:50 Gilt Plus SDL Index – April 2037 seeks to track the performance of Gilt and SDL securities maturing between 01 May 2036 to 29 April 2037. The index shall mature on 29 April 2037.

Asset Allocation

- **Gilt:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 10000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 23rd September 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- Most liquid securities in the eligible period will be selected. If less than 5 securities are available, all securities will be selected.
- Minimum Amount Outstanding should be Rs. 10,000 crores.
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and

days traded (15%) in the previous quarter.

- Weights will be reset during the quarterly rebalancing.

Rebalancing and Review:

- Eligible securities will be added on a quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case if there are no eligible securities, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

SDL

Issuer Selection:

- All states with issuances in maturing in the eligible period will be shortlisted
- 5 most liquid issuers with a minimum total amount outstanding of Rs. 1000 crores in the eligible period will be selected on the basis of liquidity. If less than 5 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 500 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- The index constituents are valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to the issuers will be divided equally, at the inception of the index.
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.
- Weights will reset every quarter.

Rebalancing and Review:

- The rebalancing period will be quarterly.
- During the quarterly rebalancing, if a new issuer meets the eligibility criteria, it will be added to the index. The weights of the issuers will be reset to equal weights during the quarterly rebalancing, when a new issuer is added in the index.
- The selected securities will be held till maturity unless a new security of same issuer is identified during, quarterly rebalancing to be more liquid.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest in any issuer or security, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 Gilt Plus SDL Index – June 2027

CRISIL-IBX 50:50 Gilt Plus SDL Index – June 2027 seeks to track the performance of Gilt and SDL securities maturing between 01 January 2027 to 30 June 2027. The index shall mature on 30 June 2027.

Asset Allocation

- **Gilt:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 4th October 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- 2 most liquid securities in the eligible period will be selected. If less than 5 securities are available, all securities will be selected.
- Minimum Amount Outstanding should be Rs. 25,000 crores.
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and

days traded (15%) in the previous quarter.

Rebalancing and Review:

- The most 2 liquid securities shall be reviewed every quarter.
- Eligible securities will be added on a quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- The existing securities will not be removed unless the security's amount outstanding falls below 25000 cr.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case if there are no eligible securities, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

SDL

Issuer Selection:

- All states with issuances having maturities in the eligible period will be shortlisted.
- Top 15 issuers with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected based on liquidity. If less than 15 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
- Uday Bonds will be excluded.

Security Selection:

- For each issuer selected, security having highest liquidity shall be selected, from securities

maturing in 6-month period before the target date, and with minimum amount outstanding of Rs. 500 crores will be considered.

- The index constituents are valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to the issuers will be divided equally, at the inception of the index.
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.

Rebalancing and Review:

- Top 15 liquid issuers will be reviewed and replaced during the quarterly rebalancing.
- The most liquid security in each issuer will be reviewed and replaced during the quarter rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest in any issuer or security, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 90-10 SDL Plus Gilt Index - November 2026

CRISIL IBX 90-10 SDL Plus Gilt Index - November 2026 seeks to track the performance of large SDL and GILT securities maturing between 01 June 2026 to 30 November 2026. The index shall mature on 30 November 2026.

Asset Allocation

- **SDL:** 90%
- **GILT:** 10%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 7,500 crores in the eligible period, having the security closest to target date.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 4th November 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- 2 securities with nearest maturity to the target date of the index in the eligible period will be selected.
- The selected security shall have a minimum average daily trading volume of Rs. 25 crores in the previous quarter.
- Minimum Amount Outstanding should be Rs. 25,000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.
- The index constituents are valued on a daily basis using CRISIL Valuations

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis and the relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.
- Eligible securities with minimum outstanding of Rs. 25000 crores as evaluated during each rebalancing date will be added on quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights,
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

SDL**Issuer Selection:**

- States with a minimum amount outstanding of Rs. 7,500 crores in the eligible period as evaluated during the inception date of index shall be shortlisted.
- Those states that have GSDP ratio (Total Outstanding Liability /Gross State Domestic Product ratio) of less than 45 as evaluated during the inception date of index shall be further shortlisted.
- Top 8 issuers out of the shortlisted issuers as evaluated during the inception date of index shall be selected based on composite liquidity score.
- Composite Liquidity score will be calculated based on the Liquidity score (70%) and Amount Outstanding score (30%) in the previous quarter.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- Securities of selected issuers which are closest to target date, in the eligible period as evaluated during the inception date of index shall be selected
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Uday Bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally, at the inception of the index.
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis and the relative weights of the securities will change due to price movement and will be reset during the quarterly rebalancing.
- Eligible securities as evaluated during each rebalancing date will be added on a quarterly basis and weights will be redistributed equally.
- Selection of states will be reviewed on an annual basis based on the latest available financial data for states.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide

circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.

- if the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 90-10 SDL Plus Gilt Index - September 2027

CRISIL IBX 90-10 SDL Plus Gilt Index - September 2027 seeks to track the performance of large SDL and GILT securities maturing between 01 April 2027 to 30 September 2027. The index shall mature on 30 September 2027.

Asset Allocation

- **SDL:** 90%
- **GILT:** 10%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 7,500 crores in the eligible period, having the security closest to target date.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 4th November 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- 2 securities with nearest maturity to the target date of the index in the eligible period will be selected.
- The selected security shall have a minimum average daily trading volume of Rs. 25 crores in the previous quarter.
- Minimum Amount Outstanding should be Rs. 25,000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.
- The index constituents are valued on a daily basis using CRISIL Valuations

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis and the relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.
- Eligible securities with minimum outstanding of Rs. 25000 crores as evaluated during each rebalancing date will be added on quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights,
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

SDL**Issuer Selection:**

- States with a minimum amount outstanding of Rs. 7,500 crores in the eligible period as evaluated during the inception date of index shall be shortlisted.
- Those states that have GSDP ratio (Total Outstanding Liability /Gross State Domestic Product ratio) of less than 45 as evaluated during the inception date of index shall be further shortlisted.
- Top 8 issuers out of the shortlisted issuers as evaluated during the inception date of index shall be selected based on composite liquidity score.
- Composite Liquidity score will be calculated based on the Liquidity score (70%) and Amount Outstanding score (30%) in the previous quarter.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- Securities of selected issuers which are closest to target date, in the eligible period as evaluated during the inception date of index shall be selected
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Uday bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally, at the inception of the index.
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis and the relative weights of the securities will change due to price movement and will be reset during the quarterly rebalancing.
- Eligible securities as evaluated during each rebalancing date will be added on a quarterly basis and weights will be redistributed equally.
- Selection of states will be reviewed on an annual basis based on the latest available financial data for states.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide

circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.

- if the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 Gilt Plus SDL Index – September 2028

CRISIL-IBX 50:50 Gilt Plus SDL Index – September 2028 seeks to track the performance of Gilt and SDL securities maturing between 01 October 2027 to 28 September 2028. The index shall mature on 28 September 2028.

Asset Allocation

- **Gilt:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 1,000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 4th November 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- 2 most liquid securities in the eligible period will be selected.
- Minimum Amount Outstanding should be Rs. 25,000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process since these are quasi government bonds
- The index constituents are valued on a daily basis using CRISIL Valuations

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and

days traded (15%) in the previous quarter.

Rebalancing and Review:

- The most 2 liquid securities shall be reviewed every quarter.
- Eligible securities will be added on a quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- The existing securities will not be removed unless the security's amount outstanding falls below 25000 cr.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case if there are no eligible securities, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

SDL

Issuer Selection:

- All states with issuances having maturities in the eligible period will be shortlisted.
- Top 15 issuers with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected based on liquidity. If less than 15 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, security having highest liquidity shall be selected, from securities maturing in twelve-month period before the target date, and with minimum amount outstanding of Rs. 500 crores will be considered.
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Uday Bonds will be excluded.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage) as evaluated during the inception date of the index
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.

Rebalancing and Review:

- The most liquid security in each issuer will be reviewed during the quarter rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve months period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case it is not possible to reinvest as per the point number a and b stated above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 90-10 SDL Plus Gilt Index - April 2032

CRISIL IBX 90-10 SDL Plus Gilt Index - April 2032 seeks to track the performance of large SDL and GILT securities maturing between 07 April 2031 to 05 April 2032. The index shall mature on 05 April 2032.

Asset Allocation

- **SDL:** 90%
- **GILT:** 10%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 7,500 crores in the eligible period, having the security closest to target date.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 9th November 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- 2 securities with nearest maturity to the target date of the index in the eligible period will be selected.
- The selected security shall have a minimum average daily trading volume of Rs. 25 crores in the previous quarter.
- Minimum Amount Outstanding should be Rs. 25,000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.
- The index constituents are valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis and the relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.
- Eligible securities with minimum outstanding of Rs. 25000 crores as evaluated during each rebalancing date will be added on quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights,
- As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

SDL**Issuer Selection:**

- States with a minimum amount outstanding of Rs. 7,500 crores in the eligible period as evaluated during the inception date of index shall be shortlisted.
- Those states that have GSDP ratio (Total Outstanding Liability /Gross State Domestic Product ratio) of less than 45 as evaluated during the inception date of index shall be further shortlisted.
- Top 8 issuers out of the shortlisted issuers as evaluated during the inception date of index shall be selected based on composite liquidity score.
- Composite Liquidity score will be calculated based on the Liquidity score (70%) and Amount Outstanding score (30%) in the previous quarter.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- Securities of selected issuers which are closest to target date, in the eligible period as evaluated during the inception date of index shall be selected
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Uday Bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally, at the inception of the index.
- The weights may drift due to price movement and due to cash flows accruing on account of coupon cash flows and will be reset during rebalancing.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis and the relative weights of the securities will change due to price movement and will be reset during the quarterly rebalancing.
- Eligible securities as evaluated during each rebalancing date will be added on a quarterly basis and weights will be redistributed equally.
- Selection of states will be reviewed on an annual basis based on the latest available financial data for states.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide

circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.

- if the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX SDL Index – April 2033

CRISIL-IBX SDL Index – April 2033 seeks to track the performance of SDL securities maturing between 16 April 2032 to 15 April 2033. The index shall mature on 15 April 2033.

Asset Allocation

- **SDL:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers with a minimum outstanding of Rs. 5,500 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 25th November 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

SDL

Issuer Selection:

- All states with issuances in maturing in the eligible period as evaluated during the inception date of the index will be shortlisted
- 12 most liquid issuers as evaluated during the inception date of the index with a minimum total amount outstanding of Rs. 5,000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer, most liquid security based on liquidity score in the previous quarter will be selected as evaluated during the inception date of the index. Securities maturing in 12 month period before the target date, with minimum amount outstanding of Rs. 1000 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

- Uday Bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index
- The weights may drift due to price movement and will be reset on a quarterly basis

Rebalancing and Review:

- The securities will be rebalanced on a semi-annually basis.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - if the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 60:40 SDL Plus AAA PSU Index – April 2026

CRISIL-IBX 60:40 SDL + AAA PSU Index – April 2026 seeks to track the performance AAA PSU and SDL issuers maturing between 01 November 2025 to 30 April 2026. The index shall mature on 30 April 2026.

Asset Allocation

- **SDL:** 60%
- **AAA PSU:** 40%

The weights between asset classes may drift due to price movement and will be reset semi-annually.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Corporate issuers with rating of AAA, issued by PSUs, with a minimum outstanding of Rs. 700 crores in the eligible period, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 1,500 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 25th November 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

SDL

Issuer Selection:

- All states with issuances in maturing in the eligible period will be shortlisted
- 10 most liquid issuers with a minimum total amount outstanding of Rs. 1,500 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected. Minimum 5 issuers are to be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 1500 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.

- UDAY bonds will be excluded
- The index constituents are valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index.
- Weights will be reset every six months.

Rebalancing and Review:

- The index constituents will be reviewed on semi-annual basis.
- Existing issuers will be carried forward to the next rebalancing period.
- If the total number of SDL issuers fall below 5, when issuers are excluded due to any reason, new issuers will be added as per the criteria stated above.
- When any issuer is excluded, the weight of the particular issuer will be redistributed proportionally in rest of the issuers of same asset class.
- Securities of selected issuers will be reviewed and replaced by the most liquid securities during semi-annual rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6 month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month.
- Any index having maturity date on a weekend (Saturday or Sunday), on a holiday, or on an unplanned market off, will mature on the next working day.

AAA PSU

Eligibility norms:

Issuing entity should be domiciled in India and should satisfy either of the following:

- Central Public Sector Enterprises (CPSEs) as listed on DPE & DIPAM website.

- Maharatna, Navratna and Miniratna as listed on DPE website, if not included in CPSEs list as mentioned in point 1.
- Public Financial Institutions (PFIs) owned and managed by GOI and not included in points 1 and 2 above.
- Statutory body set-up by Act of Parliament.

Issuer Selection:

- All eligible issuers with a conservative rating of AAA maturing in the eligible period will be shortlisted
- 10 most liquid issuers with a minimum total amount outstanding of Rs. 700 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected. Minimum 7 issuers are to be selected.
- In case 7 issuers are not selected on the basis of liquidity, issuers with highest amount outstanding in the eligible period shall be selected till there are 7 issuers in the index (issuer must have more than Rs. 700 crores in eligible period)
- Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected from traded liquidity data, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 250 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- For issuers selected from outstanding data, the security nearest to target maturity will be selected.
- Perpetual bonds, Floating rate bonds, Tax free bonds, GOI service bonds, GOI guaranteed bonds, CE Rated, Partly Paid, Partial Redemption and bonds with embedded call/put options, subordinated debt securities, strips securities are excluded from the universe of bonds.
- Additional Tier-II are excluded from the universe of bonds.

Weighing Approach:

- Weights to the issuers will be divided in the proportion of their amount outstanding in the eligible period. If the issuer cap is met, the excess weight shall be re-distributed amongst remaining issuers.
- Each issuer will be subject to a cap of 12.5%
- Weights will be reset every six months.

Rebalancing and Review:

- The issuers and securities both will be rebalanced semi-annually.
- Existing issuers will be carried forward to the next rebalancing period.
- During the semi-annual rebalancing, if a new issuer meets the eligibility criteria, it will be added

to the index, subject to limit of 10 issuers. The weights of the issuers will be reset as per the weighing approach mentioned above.

- The selected securities will be held till maturity (or till they are replaced by security of the same issuer with maturity date nearer to the maturity date of the fund during semi-annual rebalancing). If the issuer cap of 12.5% is being breached, additional / excess amount may be invested in the rest of the securities of the same asset class which are part of the index
- If government gives 'in principal approval' to disinvest its stake in any government owned entity, such entity will not be a part of the index at the time of inception of the index.
- If any existing constituent of the index gets in principal approval for disinvestment, such issuer, will be excluded from the index, only after the process of disinvestment is completed, during the quarter rebalancing of the index.
- In case if any issuer gets downgraded from AAA, such issuers shall be excluded from the index within the next 5 working days.
- When the issuer is excluded, the weight of the particular issuer will be redistributed proportionally in rest of the issuers of same asset class.
- If the total number of AAA issuers fall below 7, when issuers are excluded on the basis of above reasons (Downgrade/disinvestment), new issuers will be added as per the criteria stated above.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights,
- As the index includes securities that shall mature during the 12-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

CRISIL-IBX SDL Index – June 2027

CRISIL-IBX SDL Index – June 2027 seeks to track the performance of SDL securities maturing between 16 December 2026 to 15 June 2027. The index shall mature on 15 June 2027.

Asset Allocation

- **SDL:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers with a minimum outstanding of Rs. 5,000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 22nd December 2022.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

SDL

Issuer Selection:

- All states with issuances in maturing in the eligible period as evaluated during the inception date of the index will be shortlisted
- 12 most liquid issuers as evaluated during the inception date of the index with a minimum total amount outstanding of Rs. 5,000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer, most liquid security based on liquidity score in the previous quarter will be selected as evaluated during the inception date of the index. Securities maturing in 6 month period before the target date, with minimum amount outstanding of Rs. 1000 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

- Uday Bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index
- The weights may drift due to price movement and will be reset on a quarterly basis

Rebalancing and Review:

- The securities will be rebalanced on a semi-annually basis.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - if the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 SDL Plus Gilt Index - June 2028

CRISIL-IBX 50:50 SDL Plus Gilt Index - June 2028 seeks to track the performance of large SDL and GILT securities maturing between 01 January 2028 to 30 June 2028. The index shall mature on 30 June 2028.

Asset Allocation

- **SDL:** 50%
- **GILT:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 1000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 02nd January, 2023.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- Securities with minimum Amount Outstanding of Rs. 25000 crores will be eligible for selection as evaluated during the inception date.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertiliser bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process since these are quasi government bonds
- 2 most liquid securities as evaluated during the inception date will be selected based on liquidity in the previous quarter.
- The index constituents shall be valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to individual securities as evaluated during the inception date and during each index rebalancing will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). These weights will drift on an ongoing basis on account of relative price movements.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Rebalancing and Review:

- The most 2 liquid securities shall be reviewed every quarter.
- Eligible securities will replace existing securities on a quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach—
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The relative weights of the Government securities will change due to price movement and will be reset during the semi-annual rebalancing.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

SDL**Issuer Selection:**

- All states with issuances maturing in the eligible period, as evaluated during the inception date, will be shortlisted.
- Top 15 issuers with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected on the basis of liquidity as evaluated during the inception date. If less than 15 issuers are available, all such issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, security having highest liquidity as evaluated during the inception date of the index shall be selected, from securities maturing in 6-month period before the target date, and with minimum amount outstanding of Rs. 500 crores will be considered.
- The index constituents shall be valued on a daily basis using CRISIL Valuations.
- Uday Bonds will be excluded.

Weighing Approach:

- Weights to individual securities as evaluated during the inception date and during each index rebalancing will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). These weights will drift on an ongoing basis on account of relative price movements.
- Weights will be reset during every rebalancing period.

Rebalancing and Review:

- The most liquid security in each issuer will be reviewed during the quarter rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 6-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach -
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms.
 - In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.

- If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 Gilt Plus SDL Index – April 2033

CRISIL-IBX 50:50 Gilt Plus SDL Index – April 2033 seeks to track the performance of Gilt and SDL securities maturing between 26th April 2032 to 25th April 2033. The index shall mature on 25th April 2033.

Asset Allocation

- **Gilt:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25000 crores.
- States filtered based on Total outstanding liability and Gross state domestic product ratio with a minimum outstanding of Rs 6,000 crores in the eligible period, having the security closest to target date.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 10th January 2023.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- All Securities are selected on the basis of Amount Outstanding.
- All securities, in the eligible period, with minimum Amount Outstanding of Rs. 25000 crores.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process since these are quasi government bonds
- The index constituents are valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to individual securities will be divided equally as evaluated during inception date of the index.
- The weights may change due to relative price movements of securities

Rebalancing and Review:

- All securities shall be reviewed every quarter.
- Eligible securities will be added on a quarterly basis and weights will be redistributed equally.
- The relative weights of the Government securities and asset classes will change due to price movement and will be reset during the quarterly rebalancing.
- The existing securities will not be removed unless the security's amount outstanding falls below 25000 cr.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case if there are no eligible securities, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.
- The relative weights of the Government securities will change due to price movement and will be reset during the quarterly rebalancing.

SDL**Issuer Selection:**

- All SDL issuers with a minimum total amount outstanding of Rs. 6,000 crores in the eligible period will be shortlisted.
- Top 5 issuers as evaluated during the inception date of the index shall be selected based on "Total Outstanding Liability /Gross State Domestic Product ratio" (in the order of lowest to highest)

Security Selection:

- Securities of selected issuers which are closest to target date, in the eligible period shall be selected.
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Uday Bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index. The weights shall change basis the relative price movements
- Weights will be reset during every rebalancing.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis.
- If any security becomes eligible, it will be added during the rebalancing, and the weights will be reset.
- Selection of states will be reviewed on an annual basis based on the latest available financial data for states.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights
- As the index includes securities that shall mature during the twelve months period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case it is not possible to reinvest as per the point number a and b stated above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 Gilt Plus SDL Short Duration Fund Index

CRISIL-IBX 50:50 Gilt Plus SDL Short Duration Fund Index seeks to track the performance of short term Gilt and SDL issuers in a fixed maturity bucket.

Asset Allocation

- **Gilt:** 50%
- **SDL:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- Government securities with highest liquidity and a minimum outstanding of Rs. 10000 crores.
- State issuers with highest liquidity in the eligible bucket, having the security with highest liquidity.
- Following four buckets shall be taken into consideration based on residual maturity as on the inception date and rebalancing date for government securities and State issuers: -
 - 1-2 year Bucket
 - 2-3 year Bucket
 - 3-4 year Bucket
 - 4-5 year Bucket
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 25th January 2023.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- Topmost liquid security with a minimum outstanding of Rs. 10,000 crores as evaluated on the inception date and each rebalancing date in each eligible bucket shall be selected.
- Liquid security selection shall be done based on highest liquidity score.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.
- Liquidity score shall be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarters.

Weighing Approach:

- Weights to individual securities will be divided equally as evaluated during inception date of the index.
- The weights may change due to relative price movements of securities.

Rebalancing and Review:

- All securities shall be reviewed every quarter.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

SDL**Issuer Selection:**

- All states with issuances maturing in the eligible Bucket shall be shortlisted.
- Topmost liquid issuers in the eligible bucket shall be selected on the basis of liquidity as evaluated during inception date and each rebalancing date.
- Liquidity score shall be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
- UDAY bonds shall be excluded from eligible universe.

Security Selection:

- For each issuer selected, most liquid security as evaluated during the index inception and each rebalancing date based on liquidity score in the eligible bucket shall be selected. Securities with minimum amount outstanding of Rs. 500 crores shall be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe shall be selected.

Weighing Approach:

- Weights to the issuers under each bucket will be divided equally as on the base date of the index.
- The weights shall change basis the relative price movements.
- Weights will be reset during every rebalancing.

Rebalancing and Review:

- The index constituents will be reviewed on a quarterly basis.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights

- The effective date of the above rebalancing shall be first working day of the month or the quarter.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX Gilt Index – April 2032

CRISIL-IBX Gilt Index – April 2032 seeks to track the performance of Gilt securities maturing between 1st May 2031 to 30th April 2032. The index shall mature on 30th April 2032.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government Securities are to be selected with minimum Amount Outstanding should be Rs. 25000 crores.
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt and T-Bills valuations.
- Inception Date of Index: 25th January 2023.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

Security Selection:

- All eligible Securities shall be selected on the basis of Amount Outstanding.
- Securities are to be selected with minimum Amount Outstanding should be Rs. 25000 crore.
- The selected security shall have a minimum average daily trading volume of Rs. 25 crore in the previous quarter.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage), as on base date of the index, which is the inception date of the index. Post the inception dates the weights calculated basis liquidity score and amount outstanding may drift due to price movements. Such weights shall be reset half-yearly.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
- Weights will be reset on the rebalancing date.

Rebalancing and review:

- The securities shall be rebalanced every 6 months and the relative weights of the Government securities will change due to price movement and will be reset during the half-yearly rebalancing.
- Eligible securities will be added on a half yearly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage).
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the 12 month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach:-
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding government security and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the government securities cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason, it is not possible to reinvest any issuer as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then such proceeds shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX SDL Index – June 2032

CRISIL-IBX SDL Index – June 2032 seeks to track the performance of SDL securities maturing between 01st July 2031 to 30th June 2032. The index shall mature on 30th June 2032.

Asset Allocation

- **SDL:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- State issuers with a minimum outstanding of Rs. 14,000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 31st January 2023.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

SDL

Issuer Selection:

- All states with issuances in maturing in the eligible period will be shortlisted
- 10 most liquid issuers identified at the time of inception of the index with a minimum total amount outstanding of Rs. 14000 crores in the eligible period will be selected on the basis of liquidity. If less than 10 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Security Selection:

- For each issuer selected, most liquid security based on liquidity score in the previous quarter will be selected. Securities maturing in eligible period before the target date, with minimum amount outstanding of Rs. 1000 crores will be considered. If there are no trades in the previous quarter for a particular issuer, then security nearest to the maturity from the eligible universe will be selected.
- UDAY bonds will be excluded.

Weighing Approach:

- Weights to the issuers will be divided equally as on the base date of the index. The weights may drift due to relative price movements of securities.
- Weights will be reset during every rebalancing.

Rebalancing and Review:

- The index constituents will be reviewed on semi-annual basis (April and October).
- If any issuer becomes eligible, it will be added during the rebalancing, and the weights will be redistributed. Existing issuers will continue to remain in the index.
- During the rebalancing, if any security of an issuer becomes eligible, it will be added to the index. Existing securities continue to remain in the index. Weight of the issuer will be divided among the securities.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the twelve month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding SDL security issued by the same issuer and maturing on or just before the index maturity date.
 - In case a replacement in the form of another outstanding SDL security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case due to any reason it is not possible to invest as per the points above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX 50:50 SDL Plus Gilt Index - September 2027

CRISIL-IBX 50:50 SDL Plus Gilt Index – September 2027 seeks to track the performance of large SDL and GILT securities maturing between 01 April 2027 to 30 September 2027. The index shall mature on 30 September 2027.

Asset Allocation

- **SDL:** 50%
- **GILT:** 50%

The weights between asset classes may drift due to price movement and will be reset quarterly.

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- It's a target date index which follows a roll-down approach.
- Government securities with a minimum outstanding of Rs. 25,000 crores, having the security with highest liquidity.
- State issuers with a minimum outstanding of Rs. 1000 crores in the eligible period, having the security with highest liquidity.
- Index portfolio marked-to-market on a daily basis using CRISIL valuations
- Inception Date of Index: 03rd February, 2023.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels

Methodology

Gilt

Security Selection:

- Securities with minimum Amount Outstanding of Rs. 25000 crores will be eligible for selection as evaluated during the inception date.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process since these are quasi government bonds
- 2 most liquid securities as evaluated during the inception date will be selected based on liquidity in the previous quarter.
- The index constituents shall be valued on a daily basis using CRISIL Valuations.

Weighing Approach:

- Weights to individual securities as evaluated during the inception date and during each index rebalancing will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). These weights will drift on an ongoing basis on account of relative price movements.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.

Rebalancing and Review:

- The most 2 liquid securities shall be reviewed every quarter.
- Eligible securities will be added on a quarterly basis and weights will be redistributed based on ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). These weights will drift on an ongoing basis on account of relative price movements
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights.
- As the index includes securities that shall mature during the six month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach:-
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case it is not possible to reinvest as per the point number a and b stated above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The relative weights of the Government securities will change due to price movement and will be reset during the semi-annual rebalancing.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.

SDL**Issuer Selection:**

- All states with issuances maturing in the eligible period will be shortlisted
- Top 15 issuers as evaluated on the inception date of the index with a minimum total amount outstanding of Rs. 1,000 crores in the eligible period will be selected on the basis of liquidity. If less than 15 issuers are available, all issuers will be selected.
- Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter

Security Selection:

- For each issuer selected, security having highest liquidity as evaluated on the inception date of the index shall be selected, from securities maturing in 6-month period before the target date, and with minimum amount outstanding of Rs. 500 crores will be considered.
- The index constituents are valued on a daily basis using CRISIL Valuations.
- Uday Bonds will be excluded.

Weighing Approach:

- Weights to individual securities as evaluated during the inception date and during each index rebalancing will be calculated in the ratio of amount outstanding (30% weightage) and liquidity score (70% weightage). These weights will drift on an ongoing basis on account of relative price movements.
- Weights will be reset during every rebalancing period.

Rebalancing and Review:

- The most liquid security in each issuer will be reviewed during the quarter rebalancing.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights,
- As the index includes securities that shall mature during the six month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach –
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case it is not possible to reinvest as per the point number a and b stated above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on

- or just before the index maturity date.
- If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.
- Any index having maturity date on a weekend (Saturday and Sunday) or on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX SDL Index – June 2034

CRISIL-IBX SDL Index - June 2034 seeks to track the performance of SDL securities maturing between 01 July 2033 to 30 June 2034. The index shall mature on 30 June 2034.

Inception date: Yet to finalize.

Asset Allocation

- **SDL:** 100%

Target date (Maturity date of the index): 30 June 2034

Eligible period/lookback period – The dates between which underlying securities will mature:

- 01 July 2033 to 30 June 2034

Asset Allocation :

SDL	100%
-----	------

- As the index includes securities that shall mature within rebalancing period ending, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach: -
 - The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (state in case of SDL and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date.
 - In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
 - In case it is not possible to reinvest as per the point number a and b stated above, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

Index Construction:

Parameter	Asset class – SDL
Eligibility criteria	<ul style="list-style-type: none"> • Minimum amount outstanding of states in the eligible - Rs. 10,000 crores • Minimum amount outstanding of securities in the eligible period - Rs. 1000 crores

Weight reset frequency	<ul style="list-style-type: none"> Quarterly (Jan, Apr, July, Oct)

- The effective date of the above rebalancing shall be first working day of the month of rebalance.

CRISIL Broad Based Gilt Index

CRISIL Broad Based Gilt Index seeks to track the performance of all Gilt securities outstanding.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- Government Securities are to be selected with minimum Amount Outstanding should be Rs. 3000 crores.
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt valuations.
- Inception Date of Index: 01st October 2004.

Key Characteristics

- **Replicability:** The index constituents are valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

Security Selection:

- All eligible Securities shall be selected on the basis of Amount Outstanding.
- Securities are to be selected with minimum Amount Outstanding should be Rs. 3000 crore.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- Weights to individual securities will be calculated on the basis of amount outstanding. Such weights shall be reset monthly.
- Weights will be reset on the rebalancing date.

Rebalancing and review:

- The securities shall be rebalanced every 1 month, and the relative weights of the Government securities will change due to price movement and will be reset during the rebalancing.
- Eligible securities will be added on a monthly basis and weights will be redistributed based on the basis of amount outstanding.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be hold as cash till next weight reset.
- The effective date of the above rebalancing shall be first working day of the month of rebalance.

CRISIL 10 Year Gilt Index

CRISIL 10 Year Gilt Index seeks to track the performance of the on-the-run 10 year benchmark government security.

Asset Allocation

- **Government Bonds:** 100%

Features

- Total Return Index seeking to capture price and coupon returns of the underlying portfolio.
- The on-the-run 10 year benchmark Government Security is to be selected with minimum Amount Outstanding should be Rs. 24000 crores or the average traded volume of new security as a percentage of old, during last 7 working days, should be a minimum of 50%.
- Index portfolio marked-to-market on a daily basis using CRISIL Gilt valuations.
- Inception Date of Index: 01st September 2010.

Key Characteristics

- **Replicability:** The index constituent is valued on a daily basis. This lends the index a realistic approach by having the valuations close to the market levels.

Methodology

Security Selection:

- Eligible Security shall be selected on the basis of Amount Outstanding and average traded volume.
- Securities are to be selected with minimum Amount Outstanding should be Rs. 24000 crore or the average traded volume of new security as a percentage of old, during last 7 working days, should be a minimum of 50%.
- Surrogate bonds (namely Food Corporation of India bonds, Oil bonds, Fertilizer bonds and UTI Special Bonds), STRIPS and Floating rate bonds shall be kept out of the purview of the selection process.

Weighing Approach:

- 100% Weight to on-the-run 10 year benchmark Government Security.

Rebalancing and review:

- The security shall be rebalanced on the new issuance of the government security meeting the selection criteria.
- Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested in the same security on the same day.
- The effective date of the above rebalancing shall be next working day when new security met its

criteria.

CRISIL-IBX AAA Financial Services Index – Sep 2027

Target Date	30 th September 2027
Eligible Period	Securities maturing in 6-month period ending 30 th September 2027
Asset Allocation	AAA- Corporate Bonds: 100%
Base Date	28 th August 2024
Base index value	1000
<p>Index objective: Seeks to track the performance of AAA issuers from the financial services sector maturing near target date of the index. This is a sectoral index consisting of only issuers from financial services sector.</p> <p>Eligibility criteria:</p> <ul style="list-style-type: none"> • AAA-rated corporate bond issuers in the financial services sector with conservative rating of AAA only based on liquidity, and the security nearest to index maturity. • Issuing entity should be domiciled in India and should satisfy either of the following: <ol style="list-style-type: none"> 1) HFC issuers as available in the list mentioned on the nhb.org.in website with minimum outstanding amount of Rs.300 Cr in the eligible bonds of the issuer. 2) NBFC issuers as available in the RBI list of Non-Banking Financial Companies (NBFCs) with minimum Outstanding amount of Rs.300 Cr in the eligible bonds of the issuer. 3) Public Financial Institutions (PFIs) owned and managed by GOI as available in the RBI list of Public Financial Institutions (PFIs) with minimum outstanding amount of Rs.300 Cr in the eligible bonds of the issuer. 4) Private sector banks as per RBI with minimum outstanding amount of Rs.2,500 Cr in the eligible bonds of the issuer. 	
Securities Selection Methodology	
AAA	<p>Issuer Selection:</p> <ol style="list-style-type: none"> 1. All eligible financial services corporate bond issuers with a conservative rating of AAA as evaluated during the inception date of the index maturing in the eligible period will be shortlisted. 2. Up to 20 most liquid issuers with a minimum total amount outstanding as stated in the eligibility criteria above and in the eligible period as evaluated during the inception date of the index will be selected based on liquidity score. If less than 20 issuers are available, remaining issuers will be selected based on total amount outstanding in the eligible period. The count of issuers could be below 20 (minimum count of 8 issuers shall be ensured), in case a smaller number of issuers are available. 3. Liquidity score for issuers will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter. <p>Security Selection:</p> <ol style="list-style-type: none"> 1. Only listed securities will be eligible to be part of the Index.

	<p>2. For each issuer selected, security having maturity nearest to the target date as evaluated during the inception date of the index shall be selected, from securities maturing in eligible period.</p> <p>3. Perpetual bonds, Floating rate bonds, Tax free bonds, CE/SO Rated, Partly Paid, Partial Redemption, Securitized debt and bonds with embedded call/put options are excluded from the universe of bonds. Bonds with both put & call option on same dates will be excluded too.</p> <p>Weighing Approach</p> <ol style="list-style-type: none"> 1. Weights to individual securities will be divided equally. 2. Weights to the issuers will be subject to group caps of 25% each as evaluated during the inception date of the index. The 25% group caps are not applicable to PSUs, PFIs and PSBs as mentioned in the SEBI circular SEBI/HO/IMD/DOF2/P/CIR/2022/69 3. The weights of the issuers may change due to relative price movements which will be reset on a quarterly basis (on the first business day of the quarter). 4. Each issuer will be subject to a cap of 15% <p>Rebalancing and Downgrade:</p> <ul style="list-style-type: none"> • The rebalancing review will be done on a semi-annual basis. • During the semi-annual rebalancing, if a new issuer meets the eligibility criteria as mentioned above and comes within the top 8 rank based on liquidity score of previous quarter, then only it will be added to the index, i.e. issuers will be only added in the index and no issuers will be removed based on liquidity. The weights of the issuers will be reset as mentioned above during the semi-annual rebalancing (subject to group and issuer caps) • The security of the newly added issuer within the eligibility period and nearest to the target date of the index will be selected. • The selected securities of each issuer in the index will be held till maturity unless there is another security of the same issuer with maturity date nearer to the target date of the index during semi-annual rebalancing in which case it will be replaced by the later. • If the issuer cap or group cap is being breached, additional / excess amount may be proportionately invested in the rest of the securities of the index. • In case if any AAA issuer gets downgraded, such issuer shall be excluded from the index within 5 working days. • When the issuer is excluded in between rebalancing, the weight of the issuer will be redistributed proportionally in rest of the issuers of the index, subject to the caps.
--	---

	<ul style="list-style-type: none"> • New issuers will be added only during the next rebalancing. • Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights. <ol style="list-style-type: none"> 1. As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach: - <ol style="list-style-type: none"> a. The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (SDL in case of state/UT and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date with the same weightage. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 on May 23, 2022. b. In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 on May 23, 2022 c. In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date d. If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by CRISIL Overnight index for any subsequent days till the maturity of the index. <p>The effective date of rebalancing shall be first working day of the rebalancing Period.</p>
--	--

	Any index having maturity date on a weekend (Saturday or Sunday), on a holiday, or on an unplanned market off, will mature on the next working day.
--	---

CRISIL-IBX AAA NBFC Index – Jun 2027

“CRISIL-IBX AAA NBFC Index – Jun 2027” is a sectoral/thematic target maturity index that seeks to track the performance of AAA issuers from the NBFC sector only, maturing near target date of the index

Inception date: 27th August 2024

Asset Allocation: 100% Bonds

Eligible period/lookback period: The index will have securities maturing between 1st January 2027 to 30th June 2027.

Asset Allocation:

Bonds	100%
-------	------

Index Construction:

Parameter	Asset class – Bonds
Eligibility criteria	<ul style="list-style-type: none"> • Issuers in the NBFC (as available in the RBI list of Non-Banking Financial Companies (NBFCs)) sector with long term conservative rating of AAA with an issuer-level minimum total amount outstanding of Rs. 400 crores for securities maturing in the eligible period. • Minimum security level amount outstanding of Rs. 100 crores. • Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed on NSE and/or BSE as evaluated at the inception date of the index.
Universe exclusions	<ul style="list-style-type: none"> • Perpetual bonds • Floating rate bonds • Tax-free bonds • CE/SO rated bonds • Partly paid bonds • Partial redemption bonds • Single put/call options • Embedded put & call options with same exercise date • Securitized debt

Parameter	Asset class – Bonds
Issuer selection at inception	<ul style="list-style-type: none"> • All issuers qualifying the eligibility criteria mentioned above will form a part of universe. • Up to 20 traded issuers from the universe will be ranked and selected based on liquidity score. If less than 8 issuers are available, then select remaining issuers (to bring the count to 8) based on the highest amount outstanding from the universe of outstanding securities as evaluated at the inception date of the index. • Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
Security selection at inception	<ul style="list-style-type: none"> • For each selected issuer, the security with highest residual maturity maturing in the eligible period will be selected from the eligible universe. The selected security must have a minimum amount outstanding of Rs. 100 crores.
No. of constituents	<ul style="list-style-type: none"> • Maximum: 20 • Minimum: 8
Weighing approach	<ul style="list-style-type: none"> • Weights to the issuers will be calculated in the ratio of amount outstanding as on the base date/review date of the index subject to issuer cap and group cap. Since it's a sectoral index sector caps are not applicable. • Issuers weights should not exceed 15% for AAA rated issuers. Group cap of 25% will be ensured. • Excess weight (if any) will be distributed amongst the remaining issuers of the index in the proportion of their existing weights such that all the caps are maintained • When any issuer is excluded, the weight of that issuer will be redistributed proportionally amongst the rest of the issuers of the index in the proportion of their existing weights, subject to issuer & group cap. • Weights of the issuers will change with price movement and will be reset during the semi-annual rebalancing period.
Rating change treatment	<ul style="list-style-type: none"> • In case any issuer gets downgraded below AAA, such issuers shall be excluded from the index within the next 5 working days. In that case, the weight of that issuer will be redistributed proportionally in rest of the issuers of the index, subject to issuer cap & group cap. In case of less than 8 issuers are present, then new issuers will be added (to bring the count to 8) from the last reviewed working data as per above mentioned issuer selection criteria at inception.
Cash flow treatment	<ul style="list-style-type: none"> • Any cash flows accruing to the index on account of coupon cash flows, part/full redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights subject to issuer & group cap
Reconstitution/Rebalancing – 1. Issuer selection	<ul style="list-style-type: none"> • In case less than 20 issuers are available in the index then, new issuers will be added based on the latest liquidity score of eligible issuers to bring the count to maximum 20. The index may have less than 20 issuers if sufficient issuers are not available. Amount outstanding based issuer selection will be used if total count falls below 8.

Parameter	Asset class – Bonds												
2. Treatment of existing issuers	<ul style="list-style-type: none"> Hold till maturity/will not exit the index unless there is a rating downgrade or change in status/classification of the issuer. 												
3. Security selection of new issuers	<ul style="list-style-type: none"> Same as the process followed during that on the inception of index. 												
4. Treatment of existing securities of existing issuers	<ul style="list-style-type: none"> Existing security will be replaced if there is another security of the issuer maturing nearer to the target date of the index 												
Reconstitution frequency	<ul style="list-style-type: none"> Semi-annual (April, October) 												
Impact cost on reconstitution	<ul style="list-style-type: none"> At reconstitution, an impact cost is incorporated to the incoming and outgoing securities based on the liquidity classification of the issuer. <table border="1"> <thead> <tr> <th>Impact cost based on liquidity</th> <th>Total impact cost (in bps)</th> <th>Impact cost on each leg (buy or sell) in bps</th> </tr> </thead> <tbody> <tr> <td>Liquid</td> <td>5</td> <td>2.5</td> </tr> <tr> <td>Semi-liquid</td> <td>10</td> <td>5</td> </tr> <tr> <td>Illiquid</td> <td>20</td> <td>10</td> </tr> </tbody> </table>	Impact cost based on liquidity	Total impact cost (in bps)	Impact cost on each leg (buy or sell) in bps	Liquid	5	2.5	Semi-liquid	10	5	Illiquid	20	10
Impact cost based on liquidity	Total impact cost (in bps)	Impact cost on each leg (buy or sell) in bps											
Liquid	5	2.5											
Semi-liquid	10	5											
Illiquid	20	10											
Weight reset frequency	<ul style="list-style-type: none"> Semi-annual (April, October) The weights of securities/issuer will float based on the price movement and will be reset during the semi-annual review. 												

Parameter	Asset class – Bonds
Maturity proceeds	<ul style="list-style-type: none"> • As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach: - <ul style="list-style-type: none"> ○ The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (SDL in case of state/UT and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date with the same weightage. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide circular no. CRISIL-IBX AAA NBFC-HFC Index – Sep 2026

“CRISIL-IBX AAA NBFC-HFC Index – Sep 2026” is a sectoral/thematic target maturity index that seeks to track the performance of AAA issuers from the NBFC & HFC sectors only, maturing near target date of the index

Inception date: 27-Sep-2024

Asset Allocation: 100% Bonds

Eligible period/lookback period: The index will have securities maturing between 1st April 2026 to 30th September 2026.

Asset Allocation:

Bonds	100%
-------	------

Index Construction:

Parameter	Asset class – Bonds
Eligibility criteria	<ul style="list-style-type: none"> • Issuers in the NBFC (as available in the RBI list of Non-Banking Financial Companies (NBFCs)) and HFC (as available in the list mentioned on the nhb.org.in website) sector with long term conservative rating of AAA with a minimum issuer-level total amount outstanding of Rs. 500 crores for securities maturing in the eligible period. • Minimum security level amount outstanding of Rs. 100 crores. • Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed on NSE and/or BSE as evaluated at the inception date of the index.
Universe exclusions	<ul style="list-style-type: none"> • Perpetual bonds • Floating rate bonds • Tax-free bonds • CE/SO rated bonds • Partly paid bonds • Partial redemption bonds • Single put/call options • Embedded put & call options with same exercise date • Securitized debt • Additional Tier-II bonds

Parameter	Asset class – Bonds
Issuer selection at inception	<ul style="list-style-type: none"> • All issuers qualifying the eligibility criteria mentioned above will form a part of universe. • Up to 15 traded issuers from the universe will be ranked and selected based on liquidity score. If less than 15 issuers are available, then select remaining issuers (to bring the count to 15) based on the highest amount outstanding from the universe of outstanding securities as evaluated at the inception date of the index. The index could have less than 15 issuers in the case number of issuers is below 15. A minimum count of 8 issuers will be ensured by relaxing minimum outstanding criteria in steps of Rs 100 cr if required. • Liquidity score will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter.
Security selection at inception	<ul style="list-style-type: none"> • For each selected issuer, the security with highest amount outstanding in the eligible period will be selected from the eligible universe. The selected security must have a minimum amount outstanding of Rs. 100 crores.
No. of constituents	<ul style="list-style-type: none"> • Minimum: 8
Weighing approach	<ul style="list-style-type: none"> • Weights to individual securities/issuer will be divided equally at the inception date/rebalancing of the index. • Issuers weights should not exceed 15% for AAA rated issuers. Group cap of 25% will be ensured. • Excess weight (if any) will be distributed amongst the remaining issuers of the index in the proportion of their existing weights such that all the caps are maintained • When any issuer is excluded, the weight of that issuer will be redistributed proportionally amongst the rest of the issuers of the index in the proportion of their existing weights, subject to issuer & group cap. • Weights of the issuers will change with price movement and will be reset during the semi-annual rebalancing period.
Rating change treatment	<ul style="list-style-type: none"> • In case any issuer gets downgraded below AAA, such issuers shall be excluded from the index within the next 5 working days. In that case, the weight of that issuer will be redistributed proportionally in rest of the issuers of the index, subject to issuer cap & group cap. In case of less than 8 issuers are present, then new issuers will be added (to bring the count to 8) from the last reviewed working data as per above mentioned issuer selection criteria at inception.
Cash flow treatment	<ul style="list-style-type: none"> • Any cash flows accruing to the index on account of coupon cash flows, part/full redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights subject to issuer & group cap
Reconstitution/Rebalancing – 5. Issuer selection	<ul style="list-style-type: none"> • During the semi-annual rebalancing, if a new issuer meets the eligibility criteria as mentioned above and comes within the top 5 rank based on liquidity score of previous quarter, then only it will be added to the index.

Parameter	Asset class – Bonds												
6. Treatment of existing issuers	<ul style="list-style-type: none"> Hold till maturity i.e. issuers will not exit the index unless there is a rating downgrade or change in status/classification of the issuer. 												
7. Security selection of new issuers	<ul style="list-style-type: none"> Same as the process followed during that on the inception of index.

SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date ○ If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by CRISIL Overnight index for any subsequent days till the maturity of the index. • The effective date of rebalancing shall be the first working day of the rebalancing period. • Any index having maturity date on a weekend (Saturday or Sunday), on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX AAA Financial Services Index – Jan 2028

CRISIL-IBX AAA Financial Services Index – Jan 2028	
Target Date	31 st January 2028
Eligible Period	Securities maturing in 6-month period ending 31 st January 2028
Asset Allocation	AAA - Corporate Bonds: 100%
Base Date	6 th October 2024
Base index value	1000
<p>Index objective: Seeks to track the performance of AAA issuers from the financial services sector maturing near target date of the index. This is a sectoral index consisting of only issuers from financial services sector.</p> <p>Eligibility criteria:</p> <ul style="list-style-type: none"> • AAA-rated corporate bond issuers in the financial services sector with conservative rating of AAA only. • Perpetual bonds, Floating rate bonds, Tax free bonds, CE/SO Rated, Partly Paid, Partial Redemption, Securitised debt and bonds with embedded call/put options are excluded from the universe of bonds. • Issuing entity should be domiciled in India and should satisfy either of the following amount outstanding criteria: <ol style="list-style-type: none"> 5. HFC issuers as available in the list mentioned on the nhb.org.in website with minimum outstanding amount of Rs.7000 Cr in all the bonds of the issuer across maturity. 6. NBFC issuers as available in the RBI list of Non-Banking Financial Companies (NBFCs) with minimum Outstanding amount of Rs.7000 Cr in all the bonds of the issuer across maturity. 7. Public Financial Institutions (PFIs) owned and managed by GOI as available in the RBI list of Public Financial Institutions (PFIs) with minimum outstanding amount of Rs.7000 Cr in all the bonds of the issuer across maturity. 8. Private and public sector banks as per RBI with minimum outstanding amount of Rs.3,30,000 Cr in all the bonds of the issuer across maturity. 	
Securities Selection Methodology	
AAA	<p>Issuer Selection:</p> <ol style="list-style-type: none"> 7. All eligible financial services corporate bond issuers as per the eligibility criteria listed above and having bonds maturing in the eligible period will be shortlisted as on 27th September 2024. 8. Up to 20 most liquid issuers will be selected based on liquidity score. If less than 8 issuers are available, remaining issuers will be selected based on the total amount outstanding of issuers having securities in the eligible period. 9. Liquidity score for issuers will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%), for all the securities of the issuer across maturity, in the previous 12 months, as on 27th September 2024. <p>Security Selection:</p> <ol style="list-style-type: none"> 6. Only listed securities will be eligible to be part of the Index. 7. For each issuer selected, one security having maturity nearest to the target date as evaluated during the inception date of the index shall be selected, from securities maturing in eligible period, with

	<p>minimum amount outstanding of Rs. 100 crores.</p> <p>Weighing Approach</p> <ol style="list-style-type: none"> 10. Weights to individual securities will be divided equally. 11. Weights to the issuers will be subject to group caps of 25% each as evaluated during the inception date of the index. The 25% group caps are not applicable to PSUs, PFIs and PSBs as mentioned in the SEBI circular SEBI/HO/IMD/DOF2/P/CIR/2022/69 12. The weights of the issuers may change due to relative price movements which will be reset on a semi annual basis (on the first business day of the semi annual period). 13. Any cash flows accruing to the index on account of coupon cash flows, will be reinvested on the same day in the index in the proportion of existing weights. 14. Each issuer will be subject to a cap of 15% <p>Rebalancing and Downgrade:</p> <ul style="list-style-type: none"> • The rebalancing review will be done on a semi-annual basis (April, October). • During the semi-annual rebalancing, if the count of issuers is below 20 and a new issuer meets the eligibility criteria as mentioned above and comes within the top 8 rank based on liquidity score of previous 12 months, then only it will be added to the index till the count becomes 20. The weights of the issuers will be reset as mentioned above during the semi-annual rebalancing (subject to group and issuer caps) • The security of the newly added issuer within the eligibility period and nearest to the target date of the index will be selected. • The selected securities of each issuer in the index will be held till maturity unless there is another security of the same issuer with maturity date nearer to the target date of the index during semi-annual rebalancing in which case it will be replaced by the later. • If the issuer cap or group cap is being breached, additional / excess amount may be proportionately invested in the rest of the securities of the index. • In case if any AAA issuer gets downgraded, such issuer shall be excluded from the index within 5 working days. • When the issuer is excluded in between rebalancing, the weight of the issuer will be redistributed proportionally in rest of the issuers of the index, subject to the caps. If an issuer gets excluded in between rebalancing, new issuer will be added during the next rebalancing based on the issuer addition criteria mentioned above. <ol style="list-style-type: none"> 3. As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach: - <ol style="list-style-type: none"> a. The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (SDL in case of state/UT and Bond/money market instrument in case of corporate bond) and maturing on or just before the

SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date ○ If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by CRISIL Overnight index for any subsequent days till the maturity of the index. • The effective date of rebalancing shall be the first working day of the rebalancing period. • Any index having maturity date on a weekend (Saturday or Sunday), on a holiday, or on an unplanned market off, will mature on the next working day.

CRISIL-IBX AAA Financial Services Index – Dec 2025

Target Date	31 st December 2025
Eligible Period	Securities maturing in 6-month period ending 31 st December 2025
Asset Allocation	AAA- Corporate Bonds: 100%
Base Date	Yet to be finalized
Base index value	1000
<p>Index objective: Seeks to track the performance of AAA issuers from the financial services sector maturing near target date of the index. This is a sectoral index consisting of only issuers from financial services sector.</p> <p>Eligibility criteria:</p> <ul style="list-style-type: none"> • AAA-rated corporate bond issuers in the financial services sector with conservative rating of AAA only based on liquidity, and the security nearest to index maturity. • Issuing entity should be domiciled in India and should satisfy either of the following: <ol style="list-style-type: none"> 1) HFC issuers as available in the list mentioned on the nhb.org.in website. 2) NBFC issuers as available in the RBI list of Non-Banking Financial Companies (NBFCs). 3) Public Financial Institutions (PFIs) owned and managed by GOI as available in the RBI list of Public Financial Institutions (PFIs). 4) Private and public sector banks as per RBI. 5) Any other entity falling under financial services sector as specified in the AMFI sector classification. • The total amount outstanding of all securities of above issuers in the eligible period needs to be a minimum Rs 1000 crs. 	
Securities Selection Methodology	
AAA	<p>Issuer Selection:</p> <ol style="list-style-type: none"> 10. All eligible financial services corporate bond issuers as per the eligibility criteria stated above as on 20th August 2024 (to be updated at time of launch) of the index maturing in the eligible period will be shortlisted. 11. Up to 16 most liquid issuers as evaluated as on 20th August 2024(to be updated at time of launch) will be selected based on liquidity score. If less than 16 issuers are available, remaining issuers will be selected based on total amount outstanding in the eligible period. The count of issuers could be below 16 (minimum count of 8 issuers shall be ensured), in case a smaller number of issuers are available. 12. Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security of such issuer is listed as evaluated during the inception date of the index. 13. Liquidity score for issuers will be calculated based on the volume traded (70%), number of trades (15%) and days traded (15%) in the previous quarter. <p>Security Selection:</p> <ol style="list-style-type: none"> 1. For each issuer selected, security having maturity nearest to the target date as evaluated during the inception date of the index shall be selected, from securities maturing in eligible period, with minimum amount outstanding of Rs.100 Crs. 2. Perpetual bonds, Floating rate bonds, Tax free bonds, CE/SO Rated, Partly Paid, Partial Redemption, Securitized debt, Additional Tier-II bonds and bonds with embedded call/put options are excluded from the universe of bonds. Bonds with both put & call option on same dates will be excluded too.

	<p>Weighing Approach</p> <ol style="list-style-type: none"> 1. Weights to individual securities will be divided equally at the inception date of the index. 2. Weights to the issuers will be subject to group caps of 25% each as evaluated during the inception date of the index. The 25% group caps are not applicable to PSUs, PFIs and PSBs as mentioned in the SEBI circular SEBI/HO/IMD/DOF2/P/CIR/2022/69 3. The weights of the issuers may change due to relative price movements which will be reset on a semi-annual basis (on the first business day of the semi-annual period). 4. Each issuer will be subject to an issuer cap (15% for AAA issuers) <p>Rebalancing and Downgrade:</p> <ol style="list-style-type: none"> 1. The rebalancing review will be done on a semi-annual basis. 2. During the semi-annual rebalancing, if a new issuer meets the eligibility criteria as mentioned above and comes within the top 5 rank based on liquidity score of previous quarter, then only it will be added to the index, i.e. issuers will be only added in the index and no issuers will be removed based on liquidity. The weights of the issuers will be reset as mentioned above during the semi-annual rebalancing (subject to group and issuer caps) 3. The security of the newly added issuer within the eligibility period and nearest to the target date of the index will be selected. 4. The selected securities of each issuer in the index will be held till maturity unless there is another security of the same issuer with maturity date nearer to the target date of the index during semi-annual rebalancing in which case it will be replaced by the later. 5. If the issuer cap or group cap is being breached, additional / excess amount may be proportionately invested in the rest of the securities of the index. 6. In case if any AAA issuer gets downgraded, such issuer shall be excluded from the index within 5 working days. In case of any classification changes of any issuer making the issuer ineligible, such issuer shall be excluded from the index in the next rebalancing review. 7. When the issuer is excluded in between rebalancing, the weight of the issuer will be redistributed proportionally in rest of the issuers of the index, subject to the caps. 8. New issuers will be added only during the next rebalancing 9. Any cash flows accruing to the index on account of coupon cash flows, part redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights. 10. As the index includes securities that shall mature during the six-month period ending on the final maturity date of the index, any proceeds from the redemption of securities prior to the final maturity date of the index shall be reinvested according to following waterfall approach: - <ul style="list-style-type: none"> o The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (SDL in case of state/UT and Bond/money market instrument in case of corporate bond) and maturing on or just before the index maturity date with the same weightage. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 on May 23, 2022. o In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 on May 23, 2022
--	--

	<ul style="list-style-type: none"> ○ In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date ○ If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by CRISIL Overnight index for any subsequent days till the maturity of the index. <p>The effective date of rebalancing shall be first working day of the rebalancing Period. Any index having maturity date on a weekend (Saturday or Sunday), on a holiday, or on an unplanned market off, will mature on the next working day.</p>

CRISIL-IBX Financial Services 3 to 6 Months Debt Index

“CRISIL-IBX Financial Services 3 to 6 Months Debt Index” is a constant maturity index that seeks to track the performance of Commercial Papers (CPs), Certificates of Deposit (CDs) & corporate bond securities maturing within 3 to 6 months from the date of inclusion in the index.

Inception date: 10-Dec-2024

Asset Allocation: 100% CPs, CDs & Bonds.

Index Duration: - The index will have securities maturing in the 3 to 6 months maturity at inception and securities will be reviewed on a set frequency to maintain the steady maturity profile of the index.

Asset Allocation:

CPs, CDs & Bonds	100%
------------------	------

- The weights between asset classes (CPs, CDs and Bonds) are not fixed and could be different during various review periods based on the availability of securities in the market and may also drift due to price movements in the securities.

Index Construction:

Parameter	Asset class 1 – CPs, CDs & Bonds
Eligibility criteria	<ul style="list-style-type: none"> Issuers in the financial services sector with long term conservative rating of AAA with a minimum amount outstanding of Rs. 1500 crores and having securities (CPs, CDs & Bonds) with residual maturity of 3 to 6 months. Minimum security level amount outstanding of Rs. 100 crores. Only listed issuers shall be included in the index. An issuer will be considered to be listed if at least one security (CPs or Bonds) of such issuer is listed as evaluated at the inception date of the index. CDs are not listed on the exchanges, and hence all CDs are considered eligible if they meet the remaining criteria.
Universe exclusions	<ul style="list-style-type: none"> Perpetual bonds Floating rate bonds Tax-free bonds CE/SO rated bonds Partly paid bonds Partial redemption bonds Single put/call options Embedded put & call options with same exercise date CPs/CDs with short-term ratings other than A1+

Parameter	Asset class 1 – CPs, CDs & Bonds
Issuer selection at inception	<ul style="list-style-type: none"> All issuers qualifying the eligibility criteria mentioned above will form a part of universe. Up to 20 traded issuers from the universe will be ranked and selected based on liquidity. If less than 8 issuers are available, then select remaining issuers (to bring the count to 8) based on the highest amount outstanding from the universe of outstanding securities as evaluated at the inception date of the index. If the number of issuers is still below 8, then all such eligible issuers with securities maturing in the 3 to 6 months residual maturity period will be shortlisted. Count of 8 issuers will be ensured by relaxing amount outstanding criteria first and then the residual maturity criteria i.e., highest amount outstanding issuers or highest residual maturity of issuers will be selected respectively from the outstanding data.
Security selection at inception	<ul style="list-style-type: none"> For each selected issuer, the security (CPs/CDs/Bonds) with highest residual maturity maturing in the 3 to 6 months period will be selected from the eligible universe. The selected security must have a minimum amount outstanding of Rs. 100 crores.
No. of constituents	<ul style="list-style-type: none"> Maximum: 20 Minimum: 8
Weighing approach	<ul style="list-style-type: none"> Weights to the issuers will be divided equally as on the base date of the index subject to issuer cap and group cap. Since it's a sectoral index sector caps are not applicable. Issuers weights should not exceed 15% for AAA rated issuers. Group cap of 25% will be ensured. When any issuer is excluded, the weight of that issuer will be redistributed proportionally amongst the rest of the issuers of the index, subject to issuer & group cap.
Rating change treatment	<ul style="list-style-type: none"> In case any issuer gets downgraded below AAA, such issuers shall be excluded from the index within the next 5 working days. In that case, the weight of that issuer will be redistributed proportionally in rest of the issuers of the index, subject to issuer cap & group cap. In case of less than 8 issuers are present, then new issuers will be added (to bring the count to 8) from the last reviewed working data as per above mentioned issuer selection criteria at inception.
Cash flow treatment	<ul style="list-style-type: none"> Any cash flows accruing to the index on account of coupon cash flows, part/full redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights subject to issuer & group cap.
Reconstitution/Rebalancing – 17. Issuer selection	<ul style="list-style-type: none"> The same process for issuer selection would be repeated as that followed at inception.

Parameter	Asset class 1 – CPs, CDs & Bonds
18. Treatment of existing issuers	<ul style="list-style-type: none"> The eligibility criteria and process for issuer selection will be repeated. Existing issuers will be removed if they fail to qualify on the basis of the criteria and process. The objective of such reconstitution is to maintain the liquidity and duration profile of the index
19. Security selection	<ul style="list-style-type: none"> Same as the process followed during that on the inception of index.
20. Treatment of existing securities	<ul style="list-style-type: none"> The eligibility criteria and process for issuer/security selection will be repeated. Existing issuers/security will be removed if they fail to qualify basis the criteria and process. The objective of such reconstitution is to maintain the liquidity and duration profile of the index
Reconstitution frequency	<ul style="list-style-type: none"> Quarterly (January, April, July, October)
Weight reset frequency	<ul style="list-style-type: none"> Quarterly (January, April, July, October) The weights of securities/issuer will float based on the price movement and will be reset to equal weight during the quarterly review.

CRISIL-IBX Financial Services 9 to 12 Months Debt Index

“CRISIL-IBX Financial Services 9 to 12 Months Debt Index” is a constant maturity index that seeks to track the performance of Commercial Papers (CPs), Certificates of Deposit (CDs) & corporate bond securities maturing within 9 to 12 months from the date of inclusion in the index.

Inception date: 10-Dec-2024

Asset Allocation: 100% CPs, CDs & Bonds.

Index Duration: - The index will have securities maturing in the 9 to 12 months maturity at inception and securities will be reviewed on a set frequency to maintain the steady maturity profile of the index.

Asset Allocation :

CPs, CDs & Bonds	100%
------------------	------
