## CRISIL COMPLEXITY LEVELS

CRISIL Ratings assigns complexity levels to various types of financial instruments, an initiative aimed at strengthening Indian capital markets through greater transparency. CRISIL Ratings Complexity Levels reflect the ease of understanding and analysing the risk elements in these instruments and allow investors to gauge the level of sophistication and due diligence required before investing in any financial product. Instruments are classified into three categories: simple, complex, and highly complex. This is done using four parameters: ease of calculation of payout and returns, clarity on timing of cash flows, number of counterparties involved in the transaction, and familiarity of market participants with the instrument. Complexity is distinct from risk: saying that an instrument is simple is not to say that it is less risky, but the risk will be easier to understand in a simple instrument than in a complex one. Accordingly, the complexity level applicable to PTC instrument / direct assignment indicated in the above report is ‘Highly Complex’.

Investors can refer to <https://www.crisil.com/complexity-levels> for more details and a comprehensive list of CRISIL Ratings Complexity Levels or call the Customer Service Helpdesk Toll free number: 1800 267 1301.g

## Initial Pool Details

**Originator:** The bank or financier that has originated the pool of receivables.

**Current rating/credit opinion:** The current rating assigned by CRISIL Ratings to pass-through certificates (PTCs) issued by the SPV, or the opinion provided by CRISIL on the credit profile of the acquirer payouts in transactions under the assignment of receivables programme. The ratings/credit opinions mentioned represent CRISIL Ratings' view on the transactions as on February 28, 2022.

A prefix of 'Provisional' indicates that the rating centrally factors in the strength of specific structures, and is contingent upon occurrence of certain steps or execution of certain documents by the issuer, as applicable, without which the rating would either have been different or not assigned ab initio. This is in compliance with a May 6, 2015 directive 'Standardizing the term, rating symbol, and manner of disclosure with regards to conditional/ provisional/ in-principle ratings assigned by credit rating agencies' by Securities and Exchange Board of India (SEBI) and April 27, 2021 circular 'Standardizing and Strengthening Policies on Provisional Rating by Credit Rating Agencies (CRAs) for Debt Instruments' by SEBI."

**Pool principal:** The sum of principal outstanding for all loans present in the pool at the time of securitisation.

**Investor payouts:** The sum of expected principal and interest obligations towards the PTC holders or the acquirer at the time of securitisation.

**Pool cashflows:** The sum of principal and interest outstanding for all loans present in the pool at the time of securitisation.

**No. of contracts:** The number of contracts in the pool at the time of securitisation.

**Pool duration:** The weighted average balance maturity of pool cashflows in months.

**Promised payout:** The payouts due to the investors as per the waterfall structure, any shortfall in which would result in utilization of internal/ external credit enhancement.

**Structure:** Structure of a transaction can either be at par or at a premium, depending on whether the pool principal is sold at par or at a premium to investors. Other structural features present in the transaction are appropriately mentioned, for example par with turbo amortisation, par with EIS, par with trapped EIS, par with interest only (IO) strips, etc.

## Initial Pool Characteristics

**Asset class:** The asset(s) that back the securitised receivables.

**Asset type:** The proportion of new and used assets in the pool at the time of securitisation.

**Overdue composition:** Indicates the proportion of cashflows pertaining to current contracts, one-month overdue contracts, and two or more months overdue at the time of securitisation.

**Top 3 states:** The combined proportion of the three states having the highest proportion of principal in the pool; expressed as a percentage of total pool principal at the time of securitisation.

**Weighted average seasoning (WAS):** Indicates the weighted average seasoning (in months) of the pool at the time of securitisation.

**Weighted average loan-to-value ratio (WAL):** The weighted average loan-to-value (LTV) ratio of the pool at the time of securitisation.

**Weighted average yield (WAY):** The pool yield at the time of securitisation.

## Credit Support

**Credit collateral as percentage of initial pool cashflows:** The credit collateral stipulated at the time of securitisation as a percentage of total pool cashflows.

**First loss facility as percentage of initial pool cashflows:** The first loss credit facility stipulated at the time of securitisation as a percentage of total pool cashflows.

**Second loss facility as percentage of initial pool cashflows:** The second loss credit facility stipulated at the time of securitisation as a percentage of total pool cashflows.

**Liquidity facility as percentage of initial pool cashflows:** Indicates the liquidity support available to the transaction, expressed as a percentage of pool cashflows. Some transactions also have an advance payment mechanism, wherein monthly payouts are funded by the liquidity facility, which will be reflected in a high level of utilisation of liquidity facility.

**Scheduled excess interest spread (EIS) as percentage of initial pool cashflows:** The embedded cushion available in a transaction on account of the differential between the pool yield and pass-through rate. This is only available in par structures and is expressed as a percentage of the pool cashflows. However, in a few structures, this cushion is diluted as the spread is utilised to make certain payouts like charge-offs, servicing fees, fees to liquidity provider etc. In such cases the actual cushion available to investors due to EIS may be lower than the amount stated herein.

**Subordination as percentage of initial pool cashflows:** In certain transactions, the initial pool cash flows are higher than the total payouts promised to the investors. This could be on account of either over-collateralisation (initial pool principal being higher than the principal payouts promised to the investors) or excess interest spread (pool yield being higher than the investor yield). The subordinated cashflows are computed as the difference between the initial pool cash flows and the total payouts promised to the investors expressed as a percentage of initial pool cashflows. In case of transactions structured at par with excess interest spread (either flow-back or trapped), the credit support available in the form of subordinated excess interest spread is reported under Scheduled Excess interest spread (EIS). However, in case of transactions having over-collateralisation and in case of transactions structured at par with turbo amortisation (wherein excess cash flows from the pool are used to prepay the investor's principal), the credit support available in the form of subordinated cash flows is reported in this section.

**Credit collateral post reset as percentage of stipulated credit collateral:** The credit collateral remaining in the transaction subsequent to the reset of credit collateral, as a percentage of credit collateral stipulated at the time of securitisation.

## Performance Summary

**Months post securitisation (MPS):** The number of months elapsed since securitisation.

**Balance tenure (months):** The number of months remaining for the pool to mature.

**Cumulative Collection Ratio (CCR):** The ratio of total collections till date to total billings till date. These billings include initial overdues in the pool at the time of securitisation except in cases where these overdues are not subordinated. In such cases, the CCR will be understated to that extent in comparison with other pools.

**3 month average monthly collection ratio (MCR):** The average of the ratio of monthly collections to monthly billings for the last 3 months. These billings and collections do not include prepayments.

**Pool amortisation:** The amortised pool principal, as a percentage of pool principal at the time of securitisation.

**Cumulative prepayments:** The ratio of cumulative prepayments in a pool to the pool principal at the time of securitisation.

**1-90 overdues:** The overdues on contracts delinquent between 1 to 90 days as a percentage of pool principal at the time of securitisation.

# CRISIL Ratings Performance Report

**90+ overdues:** The overdues on contracts delinquent for more than 90 days plus loss on sale of repossessed assets (wherever available) as a percentage of pool principal at the time of securitisation.

**180+ overdues:** The overdues on contracts delinquent for more than 180 days plus loss on sale of repossessed assets (wherever available) as a percentage of pool principal at the time of securitisation.

**90+ delinquencies:** The unamortised principal plus the overdues on contracts delinquent for more than 90 days plus loss on sale of repossessed assets (wherever available) as a percentage of pool principal at the time of securitisation.

**180+ delinquencies:** The unamortised principal plus the overdues on contracts delinquent for more than 180 days plus loss on sale of repossessed assets (wherever available) as a percentage of pool principal at the time of securitisation.

**Loss on repossession and sale:** Cumulative loss/(profit) on sale of repossessed assets expressed as a percentage of pool principal at the time of securitisation.

**Credit collateral as % of future payouts:** The credit collateral outstanding as a percentage of future investor payouts.

**First loss facility as % of future payouts:** The first loss facility outstanding as a percentage of future investor payouts.

**Second loss facility as % of future payouts:** The second loss facility outstanding as a percentage of future investor payouts.

**Subordination as % of future payouts:** The internal support available as a percentage of future investor payouts.

**Credit collateral utilisation:** The cumulative credit collateral utilised as a percentage of credit collateral stipulated at the time of initial rating. In case of transactions that have witnessed reset of credit collateral, the utilisation is expressed as a percentage of credit collateral available in the transaction subsequent to reset.

**First loss utilisation:** The cumulative first loss facility utilised as a percentage of stipulated first loss facility. In case of transactions that have witnessed reset of first loss facility, the utilisation is expressed as a percentage of first loss facility available in the transaction subsequent to reset.

**Second loss utilisation:** The cumulative second loss facility utilised as a percentage of stipulated second loss facility. In case of transactions that have witnessed reset of second loss facility, the utilisation is expressed as a percentage of second loss facility available in the transaction subsequent to reset.

**Liquidity facility utilisation:** The cumulative liquidity facility utilised as a percentage of stipulated liquidity facility.

**Threshold collection ratio (TCR):** The minimum cumulative collection ratio required on a pool's future cash flows, to be able to service the investor payouts on time. The lower the TCR, the lesser will be the degree of credit risk in the pool.

**Threshold credit coverage (TCC):** TCC represents the ratio of threshold credit loss in a pool (1-TCR) to the actual credit loss as on date, as indicated by the number of contracts/principal outstanding in respect of contracts overdue for more than 180 days (excluding charged off contracts).

*Above metrics are calculated based on monthly servicer/trustee reports for transactions, where loan level data is not available.*

## Abbreviations used

Acronym	Description
CE	Construction equipment
CV	Commercial vehicle
HCV	Heavy commercial vehicle
IO	Interest only strip

## CRISIL Rating Scale for Short-term Structured Finance Instruments

CRISIL A1 (SO)	Instruments with this rating are considered to have very strong degree of safety regarding timely payment of financial obligation. Such instruments carry the lowest credit risk.
CRISIL A2 (SO)	Instruments with this rating are considered to have strong degree of safety regarding timely payment of financial obligation. Such instruments carry low credit risk.
CRISIL A3 (SO)	Instruments with this rating are considered to have moderate degree of safety regarding timely payment of financial obligation. Such instruments carry higher credit risk as compared to instruments rated in the two higher categories.
CRISIL A4 (SO)	Instruments with this rating are considered to have minimal degree of safety regarding timely payment of financial obligation. Such instruments carry very high credit risk and are susceptible to default.
CRISIL D (SO)	Instruments with this rating are in default or expected to be in default on maturity.

### Note:

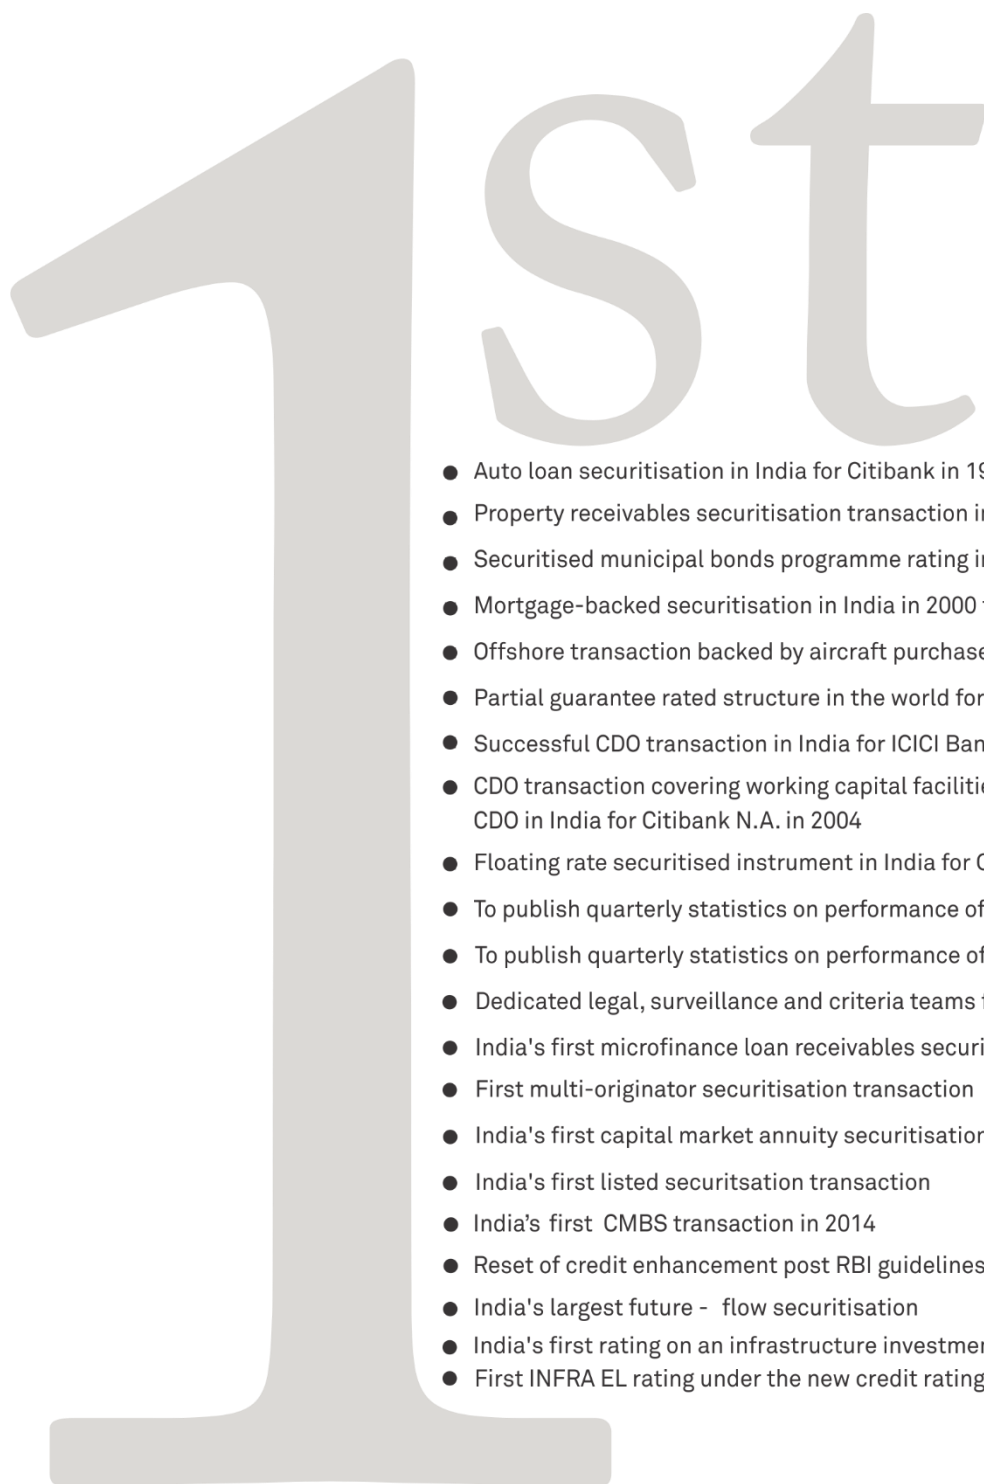

- CRISIL may apply '+' (plus) sign for ratings from 'CRISIL A1 (SO)' to 'CRISIL A4 (SO)' to reflect comparative standing within the category.
- A suffix of 'r' indicates investments carrying non-credit risk.  
  
The 'r' suffix indicates that payments on the rated instrument have significant risks other than credit risk. The terms of the instrument specify that the payments to investors will not be fixed, and could be linked to one or more external variables such as commodity prices, equity indices, or foreign exchange rates. This could result in variability in payments, including possible material loss of principal, because of adverse movements in value of the external variables. The risk of such adverse movements in price/value is not addressed by the rating.
- CRISIL may assign a rating of 'NM' (Not Meaningful) to instruments that have factors present in them, which render the outstanding rating meaningless. These include reorganisation or liquidation of the issuer, the obligation being under dispute in a court of law or before a statutory authority.
- A prefix of 'PP-MLD' indicates that the instrument is a principal-protected market-linked debenture. The terms of such instruments indicate that while the issuer promises to pay back the face value/principal of the instrument, the coupon rates of these instruments will not be fixed, and could be linked to one or more external variables such as commodity prices, equity share prices, indices, or foreign exchange rates.
- A prefix of 'Provisional' indicates that the rating centrally factors in the completion of certain critical steps/documentation by the issuer for the instrument, without these the rating would either have been different or not assigned ab initio

## CRISIL Rating Scale for Long-term Structured Finance Instruments

CRISIL AAA (SO) (Highest Safety)	Instruments with this rating are considered to have the highest degree of safety regarding timely servicing of financial obligations. Such instruments carry lowest credit risk.
CRISIL AA (SO) (High Safety)	Instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk.
CRISIL A (SO) (Adequate Safety)	Instruments with this rating are considered to have adequate degree of safety regarding timely servicing of financial obligations. Such instruments carry low credit risk.
CRISIL BBB (SO) (Moderate Safety)	Instruments with this rating are considered to have moderate degree of safety regarding timely servicing of financial obligations. Such instruments carry moderate credit risk.
CRISIL BB (SO) (Moderate Risk)	Instruments with this rating are considered to have moderate risk of default regarding timely servicing of financial obligations.
CRISIL B (SO) (High Risk)	Instruments with this rating are considered to have high risk of default regarding timely servicing of financial obligations.
CRISIL C (SO) (Very High Risk)	Instruments with this rating are considered to have very high likelihood of default regarding timely payment of financial obligations.
CRISIL D (SO) (Default)	Instruments with this rating are in default or are expected to be in default soon.

### Note:

- CRISIL may apply '+' (plus) or '-' (minus) signs for ratings from 'CRISIL AA (SO)' to 'CRISIL C (SO)' to reflect comparative standing within the category.
- CRISIL may assign rating outlooks for ratings from 'CRISIL AAA (SO)' to 'CRISIL B(SO)'. Ratings on Rating Watch will not carry outlooks. A rating outlook indicates the direction in which a rating may move over a medium-term horizon of one to two years. A rating outlook can be 'Positive', 'Stable', or 'Negative'. A 'Positive' or 'Negative' rating outlook is not necessarily a precursor of a rating change.  
  
CRISIL may place an outstanding rating on Rating Watch if the issuer announces a merger or acquisition, or de-merger of some business that may impact the credit profile of the rated debt instrument. Ratings may also be placed on watch if the issuer's credit profile is impacted on account of an action by regulators, or when the impact of specific events on the credit profile cannot be accurately assessed at the point when they occur, and additional information may be necessary for CRISIL to fully ascertain the creditworthiness of the rated instrument. CRISIL may place a rating on watch, with positive, negative or developing implications. A listing under rating watch does not imply that a rating will necessarily change, nor is it a prerequisite for rating change.
- A suffix of 'r' indicates investments carrying non-credit risk.  
  
The 'r' suffix indicates that payments on the rated instrument have significant risks other than credit risk. The terms of the instrument specify that the payments to investors will not be fixed, and could be linked to one or more external variables such as commodity prices, equity indices, or foreign exchange rates. This could result in variability in payments, including possible material loss of principal, because of adverse movement in value of the external variables. The risk of such adverse movement in price/value is not addressed by the rating.
- CRISIL may assign a rating of 'NM' (Not Meaningful) to instruments that have factors present in them, which render the outstanding rating meaningless. These include reorganisation or liquidation of the issuer, the obligation being under dispute in a court of law or before a statutory authority.
- A prefix of 'PP-MLD' indicates that the instrument is a principal-protected market-linked debenture. The terms of such instruments indicate that while the issuer promises to pay back the face value/principal of the instrument, the coupon rates of these instruments will not be fixed, and could be linked to one or more external variables such as commodity prices, equity share prices, indices, or foreign exchange rates.
- A prefix of 'Provisional' indicates that the rating centrally factors in the completion of certain critical steps/documentation by the issuer for the instrument, without these the rating would either have been different or not assigned ab initio.

- Auto loan securitisation in India for Citibank in 1992
- Property receivables securitisation transaction in India for DLF Universal in 1992
- Securitised municipal bonds programme rating in Asia

# CRISIL Ratings Performance Report

## DISCLAIMER

This disclaimer forms part of and applies to each credit rating report and/or credit rating rationale (each a "Report") that is provided by CRISIL Ratings Limited (hereinafter referred to as "CRISIL Ratings"). For the avoidance of doubt, the term "Report" includes the information, ratings and other content forming part of the Report. The Report is intended for the jurisdiction of India only. This Report does not constitute an offer of services. Without limiting the generality of the foregoing, nothing in the Report is to be construed as CRISIL Ratings providing or intending to provide any services in jurisdictions where CRISIL Ratings does not have the necessary licenses and/or registration to carry out its business activities referred to above. Access or use of this Report does not create a client relationship between CRISIL Ratings and the user.

We are not aware that any user intends to rely on the Report or of the manner in which a user intends to use the Report. In preparing our Report we have not taken into consideration the objectives or particular needs of any particular user. It is made abundantly clear that the Report is not intended to and does not constitute an investment advice. The Report is not an offer to sell or an offer to purchase or subscribe for any investment in any securities, instruments, facilities or solicitation of any kind or otherwise enter into any deal or transaction with the entity to which the Report pertains. The Report should not be the sole or primary basis for any investment decision within the meaning of any law or regulation (including the laws and regulations applicable in the US).

Ratings from CRISIL Ratings are statements of opinion as of the date they are expressed and not statements of fact or recommendations to purchase, hold, or sell any securities / instruments or to make any investment decisions. Any opinions expressed here are in good faith, are subject to change without notice, and are only current as of the stated date of their issue. CRISIL Ratings assumes no obligation to update its opinions following publication in any form or format although CRISIL Ratings may disseminate its opinions and analysis. Rating by CRISIL Ratings contained in the Report is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment or other business decisions. The recipients of the Report should rely on their own judgment and take their own professional advice before acting on the Report in any way. CRISIL Ratings or its associates may have other commercial transactions with the company/entity.

Neither CRISIL Ratings nor its affiliates, third party providers, as well as their directors, officers, shareholders, employees or agents (collectively, "CRISIL Ratings Parties") guarantee the accuracy, completeness or adequacy of the Report, and no CRISIL Ratings Party shall have any liability for any errors, omissions, or interruptions therein, regardless of the cause, or for the results obtained from the use of any part of the Report. EACH CRISIL RATINGS' PARTY DISCLAIMS ANY AND ALL EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY, SUITABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE. In no event shall any CRISIL Ratings Party be liable to any party for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of any part of the Report even if advised of the possibility of such damages.

CRISIL Ratings may receive compensation for its ratings and certain credit-related analyses, normally from issuers or underwriters of the instruments, facilities, securities or from obligors. CRISIL Rating's public ratings and analysis as are required to be disclosed under the regulations of the Securities and Exchange Board of India (and other applicable regulations, if any) are made available on its web sites, [www.crisil.com](http://www.crisil.com) (free of charge). Reports with more detail and additional information may be available for subscription at a fee - more details about ratings by CRISIL Ratings are available here: [www.crisilratings.com](http://www.crisilratings.com).

CRISIL Ratings and its affiliates do not act as a fiduciary. While CRISIL Ratings has obtained information from sources it believes to be reliable, CRISIL Ratings does not perform an audit and undertakes no duty of due diligence or independent verification of any information it receives and / or relies in its Reports. CRISIL Ratings has established policies and procedures to maintain the confidentiality of certain non-public information received in connection with each analytical process. CRISIL Ratings has in place a ratings code of conduct and policies for analytical firewalls and for managing conflict of interest. For details please refer to: <http://www.crisil.com/ratings/highlightedpolicy.html>

Rating criteria by CRISIL Ratings are generally available without charge to the public on the CRISIL Ratings public web site, [www.crisil.com](http://www.crisil.com). #### **Note for Media:**

This rating rationale is transmitted to you for the sole purpose of dissemination through your newspaper / magazine / agency. The rating rationale may be used by you in full or in part without changing the meaning or context thereof but with due credit to CRISIL Ratings. However, CRISIL Ratings alone has the sole right of distribution (whether directly or indirectly) of its rationales for consideration or otherwise through any media including websites, portals etc.

#### **About CRISIL Ratings Limited (A subsidiary of CRISIL Limited)**

CRISIL Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as, bank loans, certificates of deposit, commercial paper, non-convertible / convertible / partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including rating municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

CRISIL Ratings Limited ("CRISIL Ratings") is a wholly-owned subsidiary of CRISIL Limited ("CRISIL"). CRISIL Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
